many ICT projects in the developing world have been promoted by multilateral organizations bilateral aid agencies and nongovernmental organizations in recent years the extent to which these interventions and policies actually contribute to the development of the region is unclear The book provides evidence on what works and what does not Evidential Pluralism in the Social Sciences Yafeng Shan, Jon Williamson, 2023-04-24 This volume contends that Evidential Pluralism an account of the epistemology of causation which maintains that in order to establish a causal claim one needs to establish the existence of a correlation and the existence of a mechanism can be fruitfully applied to the social sciences Through case studies in sociology economics political science and law it advances new philosophical foundations for causal enquiry in the social sciences The book provides an account of how to establish and evaluate causal claims and it offers a new way of thinking about evidence based policy basic social science research and mixed methods research As such it will appeal to scholars with interests in social science research and methodology the philosophy of science and evidence based policy The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Population Geography Mohammad Izhar Hassan, 2020-04-28 This book studies the origins and development of population geography as a discipline It explores the key concepts tools and statistical and demographic techniques that are widely employed in the analysis of population The chapters in this book Provide a comprehensive geographical account of population attributes in the world with a particular focus on India Study the three major components of population change fertility mortality and migration that have remained somewhat neglected in the study of human geography so far Examine the salient social demographic and economic characteristics of population along with topics such as size distribution and growth of population Discuss major population theories policies and population development environment interrelations thus marking a significant departure from the traditional pattern oriented approach Well supplemented with figures maps and tables this key text will be an indispensable read for students researchers and teachers of human geography demography anthropology sociology economics and population studies

Evidence, Respect and Truth Liat Levanon, 2022-11-03 Can we rely solely on statistics when we judge what is true and just This book takes a holistic approach to addressing this question It considers the legal trial as its paradigmatic case study before analysing a wide range of different cases including profiling the use of algorithms to predict students grades and the authorisation of automated cars The book suggests that when we make judgements about the truth or about justice approximations are not good enough Truth and justice are uncompromising They must be so because the value that underlies them both is respect and respect takes no compromise Thus in the search for truth as in the search for justice a body of evidence that imposes a statistical compromise will not do Only evidence that in principle allows reaching the truth and doing justice is good evidence Once such evidence has been traced the burden is on us to make good use of the evidence and reach truth and justice We might or might not succeed but once we have done our best on evidence that allows success our

judgements are justified and as such they can resolve conflicts over the truth and over justice **Q&A Economics** Ray
Powell, 1995 Providing questions from past exam papers as well as new questions set by actual A Level examiners this book
on economics is one of a series
