Arrow,2016-08-25 Part intellectual autobiography and part exposition of complex yet contemporary economic ideas this lively conversation with renowned scholar and public intellectual Kenneth J Arrow focuses on economics and politics in light of history current events and philosophy as well Reminding readers that economics is about redistribution and thus about how we treat each other Arrow shows that the intersection of economics and ethics is of concern not just to economists but for the public more broadly With a foreword by Amartya Sen this book highlights the belief that government can be a powerful force for good and is particularly relevant in the current political climate and to the lay reader as well as the economist

Making Sense of Test-Based Accountability in Education Laura S. Hamilton,Brian M. Stecher,Stephen P. Klein,2002-07-31 Test based accountability systems that attach high stakes to standardized test results have raised a number of issues on educational assessment and accountability Do these high stakes

tests measure student achievement accurately How can policymakers and educators attach the right consequences to the results of these tests And what kinds of tradeoffs do these testing policies introduce This book responds to the growing emphasis on high stakes testing and offers recommendations for more effective test based accountability systems

The Life and Times of Albert Capo Alfred V. Cafiero,2014-06-24 The Life and Times of Albert Capo reveals the social economic and cultural atmosphere that existed during the latter two thirds of the twentieth century The immigrant population that lived through the Great Depression of the 1930s faced many challenges the least of which was learning a new language as they slowly integrated themselves into American society Most boys Albert s age did not encounter the peculiar situations or problems that confronted Albert The streets of New York were Albert s playground during his formative years as it was for most boys living in ethnic conclaves throughout the city Living through the Depression and prewar years gave Albert a unique perspective on the rapid change in American society The American landscape looked quite different prior to the nineteenth century there were no electric illumination of homes no telephones radios TVs automobiles or central heating of homes The importance of the twentieth century cannot be overestimated The folks who lived through the twentieth century witnessed more technological advancements inventions and discoveries than the entire past history of mankind Along with scientific discoveries was the fight for civil rights for women as well as minorities two world wars the development of nuclear energy and the atomic bomb the Korean and Vietnam wars and the conquest of outer space by landing a man on the moon It would take many volumes to describe that which has advanced the cause of civilization during the past one hundred years and it would stagger the imagination to ponder the vicissitudes of technology for the next one hundred years if we don t destroy ourselves in the process
