categories of requirements specification document that are essential for designing this application: the functional requirements, constraints, system requirements, etc.

2.1.1. Product Perspective

The online shopping-cart application is a web-based system. It can be accessed using Internet Explorer 8.0 and above, Mozilla Firefox 2.0, and Google Chrome.

2.1.1.1. User Interface

The two interface types found in the online shopping-cart application are as follows:

1. **User Interface**: Users are able to view the home page of the shopping-cart application, browse the different categories, browse and add any number of items from any categories in the shopping cart, look for information about each product, delete the items in the shopping cart, save the cart for later viewing, check out or continue shopping after adding the item to the cart, and check out the items by completing the required information in the order form.

2. **Admin Interface**: The administrator is able to view the users' information that was entered during checkout in the database, can update the information, price, shipping costs of the items, add or remove items from the main display.

Both interfaces are described, in detail, in the External Interface Requirement section of Chapter 3.

2.1.1.2. Hardware Interface

The online shopping-cart application shall provide minimum hardware requirements. The following hardware configurations are required for a PC using the online shopping-cart application:

- Pentium processor
