- Supports pre-action, deluge and agent releasing
- Voice evacuation system (optional)
- Modular assembly
- NAC 760 power-limited circuits (UL 864 Compliant)
- Intelligent interface to building / process management systems
- Degraded mode operation

System Overview

FireFinder XLS is a microprocessor-based, advanced life-safety system that has a 6" display and large, lighted buttons – making it the most intuitive fire-alarm user interface in the industry. Its use of the unique multiprocessor "Network" design, along with its ability to utilize analog and conventional detection devices, makes it an extremely flexible and configurable life-safety system.

XLS is ideally suited for commercial, institutional and industrial fire detection and notification applications. XLS complies with the requirements of NFPA Standard 72, and is listed by Underwriters Laboratories under their standard UL 864.

Underwriter's Laboratories of Canada also lists the XLS for fire applications under ULULC-5527. XLS is approved by Factory Mutual; as well as CSFM and NYMEA for use in those specific locales. In addition to the standard fire applications, XLS is listed by Underwriters Laboratories under the category ULUL for smoke control. XLS can be used as a listed Fireman's Smoke Control Station in high-rise office buildings, malls and other large structures.

XLS is listed by ULUL Listed and FM Approved for Smox[™] clean-agent systems and pre-action or deluge sprinkler systems, which include foam or water applications. XLS follows the releasing requirements, specified in NFPA 13 and 2001.
