The Grammar of Discourse Robert E. Longacre, 2013-11-21 In that The Anatomy of Speech Notions 1976 was the precursor to The Grammar of Discourse 1983 this revision embodies a third edition of some of the material that is found here The original intent of the 1976 volume was to construct a hierarchical arrangement of notional categories which find surface realization in the grammatical constructions of the various languages of the world The idea was to marshal the categories that every analyst regardless of theoretical bent had to take account of as cognitive entities The volume began with a couple of chapters on what was then popularly known as case grammar then expanded upward and downward to include other notional categories on other levels Chapters on discourse monologue and dialogue were buried in the center of the volume In the 1983 volume the chapters on monologue and dialogue discourse were moved to the fore of the book and the chapters on case grammar were made less prominent the volume was then renamed The Grammar of Discourse The current revision features more clearly than its predecessors the intersection of discourse and pragmatic concerns with grammatical structures on various levels It retains and expands much of the former material but includes new material reflecting current advances in such topics as salience clines for discourse rhetorical relations paragraph structures transitivity ergativity agency hierarchy and word order typologies

**Learning in Two Languages** Gary Imhoff, 1990-01-01 After being off the public agenda for a decade the subject of bilingual education is once again at the center of public debate Assumptions about the values of cultural pluralism and the rise of the unmeltable ethnics so dominant for the last twenty years have met a renewed public affirmation of the value of assimilation In the United States bilingual education refers to programs that emphasize students home languages and culture teach academic subject matter in students home languages and introduce English into the curriculum at a deliberate pace Students in such programs are generally members of immigrant groups and racial and ethnic minorities and they usually come from lower class economic backgrounds Over the years a number of different objectives have been advanced for bilingual education programs In the 1960s and early 1970s educators believed that these programs should be evaluated by students linguistic proficiency and progress on standardized tests More recently advocates have promoted more subjective measures such as students enhanced sense of well being and self esteem And yet others argue that the real goals of bilingual

education should be social change and economic redistribution and that programs should be evaluated by these long range goals The conference that gave rise to the essays in this volume was the first national symposium at which advocates and critics of bilingual education confronted each other s arguments face to face These essays address the objectives by which bilingual education should be evaluated the administrative practices by which programs are run and the latest research findings on the effectiveness of bilingual education Authors include Henry Trueba Rudolph Troike James Banks Joshua Fishman and Christine Rossell Learning in Two Languages will interest educators and policy researchers students of ethnic relations and others concerned about the future direction of U S educational policies in this controversial area **The**

Sunstein,2019-04-09 An illuminating study that reveals the different ways social change occurs for readers of Freakonomics and Thinking Fast and Slow The New York Times How does social change happen When do social movements take off Sexual harassment was once something that women had to endure now a movement has risen up against it White nationalist sentiments on the other hand were largely kept out of mainstream discourse now there is no shortage of media outlets for them In this book with the help of behavioral economics psychology and other fields Cass Sunstein casts a bright new light on how change happens Sunstein focuses on the crucial role of social norms and on their frequent collapse When norms lead people to silence themselves even an unpopular status quo can persist Then one day someone challenges the norm a child who exclaims that the emperor has no clothes a woman who says me too Sometimes suppressed outrage is unleashed and long standing practices fall Sometimes change is more gradual as nudges help produce new and different decisions apps that count calories texted reminders of deadlines automatic enrollment in green energy or pension plans Sunstein explores what kinds of nudges are effective and shows why nudges sometimes give way to bans and mandates Finally he considers social divisions social cascades and partyism when identification with a political party creates a strong

bias against all members of an opposing party which can both fuel and block social change      House of Commons - Public Administration Select Committee: Truth to Power: How Civil Service Reform Can Succeed - HC 74 Great Britain: Parliament: House of Commons: Public Administration Select Committee, 2013-09-06 The Public Administration Select Committee PASC has concluded a year long inquiry into the future of the Civil Service with only one recommendation that Parliament should establish a Joint Committee of both Houses to sit as a Commission on the future of the Civil Service It should be constituted within the next few months and report before the end of the Parliament with a comprehensive change programme for Whitehall with a timetable to be implemented over the lifetime of the next Parliament The Report considers the increased tensions between ministers and officials which have become widely reported and places the problems in Whitehall in a wider context of a Civil Service built on the Northcote Trevelyan settlement established in 1853 and the Haldane principles of ministerial accountability set out in 1919 The government's Civil Service Reform Plan lacks strategic coherence and clear leadership from a united team of ministers and officials The Northcote Trevelyan Civil Service remains the most effective way of supporting the democratically elected Government and future administrations in the UK Divided leadership and confused accountabilities in Whitehall have led to problems a low level of engagement amongst civil servants in some departments and agencies and a general lack of trust and openness the Civil Service exhibits the key characteristics of a failing organisation with the leadership are in denial about the scale of the challenge they face There is a persistent lack of key skills and capabilities across Whitehall and an unacceptably high level of churn of lead officials which is incompatible with good government      Life Bliss Magazine Oct 2009 ,      India Directory, Or, Directions for Sailing to and from the East Indies, China, New Holland, Cape of Good Hope, Brazil, and the Interjacent Ports James Horsburgh, 1817
