

STAND

This motorcycle is equipped with a center stand and side stand.

CENTER STAND ①

To place the motorcycle on the center stand, place your foot on the stand extension and then rock the motorcycle to the rear and upward with the passenger hand rail with your right hand, while steadying the handlebars with your left hand.

SIDE STAND ②

An interlock switch is provided to cut off the ignition circuit when the side stand is down.

The side stand/ignition interlock switch works as follows:

- If the side stand is down, the engine can not be started.
- If the engine is running and the side stand is put down, the engine will stop running.

⚠ WARNING

Riding with the side stand incompletely retracted can result in an accident when you turn left.

- Check operation of the side stand/ignition interlock system before riding.
- Always retract the side stand completely before starting off.

CAUTION

Park the motorcycle on firm, level ground to help prevent it from falling over.

If you must park on an incline, aim the front of the motorcycle uphill and apply the brake lock to reduce the possibility of rolling off the side stand. For better security, place the motorcycle on the center stand.
