

Toyota Dashboard Symbols

Tire pressure warning light

One or more tires is experiencing low pressure, either from normal causes or a tire puncture. Stop immediately, check all four tires, and inflate where necessary. If the symbol blinks for one minute, it may indicate a problem with the tire pressure monitoring system.

BRAKE

Brake system warning light (red)

Indicates that either the brake fluid is low, or the brake system is otherwise malfunctioning. Continuing to drive may be dangerous, so stop the vehicle immediately and contact your Toyota dealer.

Brake system warning light (yellow)

This brake light indicates a problem with the parking brake, electronically controlled braking, or, if your vehicle has it, the regenerative braking system.

ABS

ABS warning light

There is an issue with the anti-lock braking system (ABS) or the brake assist system. Contact your Toyota dealer immediately.

High coolant temperature warning light

The engine coolant temperature is excessively high, which means that engine is at risk of overheating. Carefully monitor your vehicle's temperature gauge and proceed to the nearest service center ASAP.

Low engine oil pressure warning light

Oil pressure in the engine is extremely low. If unaddressed, this can cause serious damage to your engine. Stop the vehicle in a safe place and contact your Toyota dealer.

Charging system warning light

There may be a problem with a charging system component like the battery or alternator. While this generally isn't dangerous, it can easily leave you stranded, so you should have it looked at immediately.

Electric power steering system warning light

You may experience a loss in power steering, which could make driving much more difficult. Stop the car immediately and contact your local Toyota service center.

Hybrid system overheat warning light

In a Toyota Hybrid vehicle, this light indicates that the hybrid system is excessively hot. Stop the vehicle as soon as possible to allow it to cool down, then contact a Toyota dealer.

Inappropriate pedal operation warning light

If accompanied by a buzzer, the brake override system may be malfunctioning. If no buzzer sounds, the brake override system is operating.

PCS warning light

If the light is yellow and accompanied by a buzzer, it may indicate a problem with the Pre-Collision System (PCS). This light also comes on when PCS is manually disabled.
