Short Story Blanche H. Gelfant, 2004-04-21 Esteemed critic Blanche Gelfant's brilliant companion gathers together lucid essays on major writers and themes by some of the best literary critics in the United States Part 1 is comprised of articles on stories that share a particular theme such as Working Class Stories or Gay and Lesbian Stories The heart of the book however lies in Part 2 which contains more than one hundred pieces on individual writers and their work including Fitzgerald Hemingway Richard Ford Raymond Carver Eudora Welty Andre Dubus Zora Neal Hurston Anne Beattie Bharati Mukherjee J D Salinger and Jamaica Kincaid as well as engaging pieces on the promising new writers to come on the scene A Room of His Own Gloria L. Cronin, 2001-01-01 The world of Saul Bellow is peopled largely by men often intellectuals who manifest Bellow's unique conception of American masculinity In this timely analysis of the Bellow oeuvre from a feminist perspective Gloria Cronin offers a stunning and insightful critique of the Nobel Prizewinning novelist Drawing on her comprehensive knowledge of Western thought and Western philosophical tradition Cronin also incorporates the brilliant insights of French feminist theory on Western male philosophers into her critique Cronin's mastery of these intellectual traditions informs her fruitful examination of Bellow's explicit dialogue rich consideration of his misogyny and the many masculinities he presents Cronin demonstrates how Bellow's almost exclusively male protagonists simultaneously search for and destroy a lost feminine essence that they yearn for and in so doing create their own prisons She also looks at the self irony pervading Bellow the comic dimension of his character's gender struggles and the spiritual sensibility that attempts to reach beyond gendered and other paradigms of selfhood A Room of His Own makes an extraordinary contribution to gender studies of masculinity and its formations Dictionary of Midwestern Literature, Volume 1 Philip A. Greasley, 2001-05-30 The Dictionary of Midwestern Literature Volume One surveys the lives and writings of nearly 400 Midwestern authors and identifies some of the most important criticism of their writings The Dictionary is based on the belief that the literature of any region simultaneously captures the experience and influences the worldview of its people reflecting as well as shaping the evolving sense of individual and collective identity meaning and values Volume One presents individual lives and literary orientations and offers a broad survey of the Midwestern experience as expressed by its many diverse peoples over time Philip A Greasley's introduction fills in background information and describes the philosophy focus methodology content and layout of entries as well as criteria for their inclusion An extended lead essay The Origins and Development of the Literature of the Midwest by David D Anderson provides a historical cultural and literary context in which the lives and writings of individual authors can be considered This volume is the first of an ambitious three volume series sponsored by the Society for the Study of Midwestern Literature and created by its members Volume Two will provide similar coverage of non author entries such as sites centers movements influences themes and genres Volume Three will be a literary history of the Midwest One goal of the series is to build understanding of the nature importance and influence of Midwestern writers and literature Another is to provide information on writers from the early years of the Midwestern experience as well as those now

emerging who are typically absent from existing reference works *The Cambridge Companion to Saul Bellow* Victoria Aarons, 2017 This book demonstrates the complexity of Bellow's work by emphasizing the ways in which it reflects the changing conditions of American identity *Nobel Writers on Writing* Ottar G. Draugsvold, 2000 When in 1901 Alfred Nobel bequeathed to the world the funds to support the Nobel Prize one of his few directives for the category of literature was that the artists selected be of idealistic tendency Since its inception the prize has given a very public voice to some of the world's greatest writers and their responses to the honor their acceptance speeches have themselves often been epochal within each author's body of literature From the famed call to arms by William Faulkner to the multicultural song of Derek Walcott from 1903's Bjørnstjerne Bjørnson to 1999's Günter Grass this collection traces the ideals of the artists and the selection committee itself throughout the entirety of the 20th century Interestingly writes Draugsvold none of the writers discuss the more technical aspects of their craft Equally striking is the strength of the common thread of idealism found in these addresses a firm belief in humankind and the power of art in its role in the service of truth and the service of liberty as Albert Camus said in 1957 I decline to accept the end of man wrote the Old Man William Faulkner The speeches presented here were chosen not by subjective but rather by substantive criteria with biographical presentations and brief statements of gratitude omitted Included are an introduction to each of the 28 writers chosen an excerpted copy of the speech or lecture and a bibliography of works in English The work concludes with a complete list of prize winners in literature and a bibliography of sources cited in the writer's introductions **The Concise New Makers of Modern Culture** Justin Wintle, 2008-11-28 A Who's Who of Western culture from Woody Allen to Emile Zola Containing four hundred essay style entries and covering the period from 1850 to the present The Concise New Makers of Modern Culture includes artists writers dramatists architects philosophers anthropologists scientists sociologists major political figures composers film makers and many other culturally significant individuals and is thoroughly international in its purview Next to Karl Marx is Bob Marley with John Ruskin is Salman Rushdie alongside Darwin is Luigi Dallapiccola Deng Xiaoping rubs shoulders with Jacques Derrida as do Julia Kristeva and Kropotkin With its global reach The Concise New Makers of Modern Culture provides a multi-voiced witness of the contemporary thinking world The entries carry short bibliographies and there is thorough cross referencing as well as an index of names and key terms *A Political Companion to Saul Bellow* Gloria L. Cronin, Lee Trepanier, 2013-05-01 Saul Bellow is one of the twentieth century's most influential respected and honored writers His novels *The Adventures of Augie March* *Herzog* and *Mr Sammler's Planet* won the National Book Award and *Humboldt's Gift* was awarded the 1976 Pulitzer Prize for fiction In addition his plays garnered popular and critical acclaim and some were produced on Broadway Known for his insights into life in a post Holocaust world Bellow's explorations of modernity Jewish identity and the relationship between art and society have resonated with his readers but because his writing is not overtly political his politics have largely been ignored *A Political Companion to Saul Bellow* examines the author's novels essays short stories and letters in

order to illuminate his evolution from liberal to neoconservative It investigates Bellow's exploration of the United States as a democratic system the religious and ideological influences on his work and his views on race relations religious identity and multiculturalism in the academy Featuring a fascinating conclusion that draws from interviews with Bellow's sons this accessible companion is an excellent resource for understanding the political thought of one of America's most acclaimed writers

Nations Torn Asunder Bill Kissane, 2016-06-23 Civil war has been a recurring feature of human societies throughout history and an essential catalyst for major international conflict And since 1945 the number of civil wars in the world has grown steadily bringing devastation on a scale more traditionally associated with international wars In spite of this there is no classic treatise on civil war to compare with the classic works we have on war revolution or peace On the one hand historians have tended to treat the big civil wars such as the American and the Spanish in isolation On the other social scientists have concentrated on identifying common patterns without looking in too much detail at the specifics of any given conflict Focusing on the numerous civil conflicts that have occurred throughout the world since the Second World War Bill Kissane bridges this gap asking what the recent social science literature adds to what we already know about civil war but also how insights from the historical literature from the ancient Greeks onwards can help explain the violent experience of so many parts of the world since 1945 At its heart is the question of what makes the contemporary

challenge posed by civil war so different to that of past periods and what if anything is new about the contemporary experience of civil war at the dawn of the twenty first century *New Makers of Modern Culture* Justin Wintle, 2016-04-22
