**History of Ancient Geography** J. Oliver Thomson, 2013-03-28

This 1948 book provides a detailed study of the contribution of ancient societies to the development of geography both in terms of theory and practical discovery. The text concentrates mainly on the perspectives of Greece and Rome but other historical periods and regions are given attention including ancient Egypt and China. Seventh Grade Social Science Terri Raymond, 2014-07-10. Over 50 discussion questions and activities and 50 quiz questions fill this comprehensive social science book. The book covers the following topics: Gathering and Using Evidence, Chronological Reasoning, Comparison and Contextualization, Economics and Economic Systems, Geographic Reasoning, and Civic Participation. If you are homeschooling or if you are just trying to get extra practice for your child, then you already know that social science workbooks and curriculum can be expensive. Homeschool Brew is trying to change that. We have teamed with teachers and parents to create books for prices parents can afford. We believe education shouldn't be expensive. **History of Ancient Geography** James Oliver Thomson, 1965. **The 1994 High School Transcript Study Tabulations** Stanley Legum, National Center for Education Statistics, Westat, Inc., 1997. The 1994 High School Transcript Study (HSTS) provides the Department of Education and other policymakers with information about current course offerings and students' course-taking patterns in the nation's secondary schools. One objective was to determine changes in course offering and selection patterns since the previous studies in 1982, 1987, and 1990. Another objective was to compare course-taking patterns to results from the National Assessment of Educational Progress (NAEP), an assessment of educational achievement nationwide. In 1994, transcripts were collected for more than 25,000 students who graduated from high school that year. These students were from 340 schools that participated in the NAEP. Information in this report documents a significant increase since 1982 in the percentage of graduates completing curricula recommended by the National Commission on Excellence in Education. As of 1994, over 25% of high school graduates are completing programs satisfying the Commission's recommendations for college-bound graduates, and nearly one-third are completing the Commission's core curriculum. Chapters 1, 2, and 3 of this report contain highlights of the study results, descriptions of the studies from 1982 through 1994, an introduction to the tables of data, a brief description of subject taxonomy, a discussion of the comparability of samples in the studies, and directions for testing the significance of differences reported in the tables. Appendix A contains tables of study data, and Appendix B lists study codes for each category of data. Contains 121 tables. SLD. Critical Schooling Francisco J. Villegas, Janelle Brady, 2018-12-18. This edited volume brings to the foreground the inequities of contemporary schooling in Canada. The editors and authors perform a critical examination of the Canadian schooling space, highlighting the agency and action of marginalized communities and their efforts to address injustice within contexts of schooling. Grounded in the unique perspective of each author, this book provides a venue for transformative practice to create inclusive and socially just contexts for diverse populations specifically.
