Lassiter,2023-11-07 The criminalization of marijuana the white middleclass drug problem moved to the epicenter of the national war on drugs during the Nixon era White middle class youth by the millions were both the primary victims of the organized drug trade and excessive drug war enforcement but policymakers also remained committed to deterring their illegal drug use controlling their subculture and coercing them into rehabilitation through criminal law Only with the emergence of crack cocaine epidemic of the mid 1980s did this use of state power move out of suburbs and remgaged more dramatically in urban and minority areas This book tells a history of how state institutions mass media and grassroots political movements long constructed the wars on drugs crime and delinquency through the lens of suburban crisis while repeatedly launching bipartisan nonpartisan crusades to protect white middle class victims from perceived and actual threats both internal and external Report of the Congressional Committees Investigating the Iran-Contra Affair United States. Lambakis,2013-12-06 For millennia the rituals of death and remembrance have been fixed by time and location but in the twenty first century grieving has become a virtual phenomenon Today the dead live on through social media profiles memorial websites and saved voicemails that can be accessed at any time This dramatic cultural shift has made the physical presence of death secondary to the psychological experience of mourning Virtual Afterlives investigates emerging popular bereavement traditions Author Candi K Cann examines new forms of grieving and evaluates how religion and the funeral industry have both contributed to mourning rituals despite their limited ability to remedy grief As grieving traditions and locations shift people are discovering new ways to memorialize their loved ones Bodiless and spontaneous memorials like those at the sites of the shootings in Aurora and Newtown and the Boston Marathon bombing as well as roadside memorials car decals and tattoos are contributing to a new bereavement language that crosses national boundaries and culture specific perceptions of death Examining mourning practices in the United States in comparison to the broader background of practices in Asia and Latin America Virtual Afterlives seeks to resituate death as a part of life and mourning as a unifying process that helps to create identities and narratives for communities As technology changes the ways in which we experience death this engaging study explores the culture of bereavement and the ways in which it too is being significantly transformed
