

SPOA10TRIO™ Two-Post Lift Series

10,000 LBS. CAPACITY LIFTS

INNOVATING...NOT IMITATING!

The world's best selling asymmetrical lift is updated to service a broader range of vehicles - with one innovative arm design!

Versatility

TRIO™ Series asymmetrical lifts are three arm configurations in one low profile arm design. With lifting capabilities of 10,000 lbs., heavy engineers have created a patented two-piece, three-stage asymmetrical arm that accommodates a wider range of vehicles. Versatility in matching the right adapters on a single lift has a use for any vehicle type and adapters are now interchangeable with three vehicle contact options. Technicians can choose the best adapter set for each vehicle or be serviced on the same arm.

Vehicle Positioning Speed

TRIO™ arms allow for quick positioning of the adapter to the vehicle getting going without moving heavy base or three stage lower arms.

The patented, integrated "third stage" adjustment easily and quickly slides the adapter to a compact vehicle contact location saving technicians even greater set-up time. (Compare the TRIO™ with competitors' industry exclusive advantage that only factory offer!)

Greater productivity equals higher profits per day, every day!
