Citizenship and Democratization: Perspectives from Different Gender-Theoretical Approaches Eva Maria Hinterhuber, Jana Günther, 2024-01-30 The year 1918 was significant in many ways seeing the end of World War 1 At the same time the impact and transformational effects of this event enabled civil society activists and politically institutionalised actors in European countries to pick up the threads of democratic social movements and parliamentary aspirations and make use of political opportunity structures to obtain citizen rights for larger parts of the population One result of this process albeit with a difference between European states was that more groups in society gained suffrage Amongst those were large sections of the working class and women While the vote was won for some new social groups in European societies others were still excluded After one centennium of struggle for political participation we would like to discuss specific problems of politics of belonging The question concerning the full recognition of citizen rights was and continually is connected to ideas of a specific membership of a nation state a fact that denotes the particular problem of membership and non membership and of inside and outside This Research Topic will take account of this special field of tension of democratisation e.g. inclusion through exclusion from a perspective of social history political science

gender studies and intersectionality approaches This analytical foil shall be used to examine the relationship between state or government action and civil society as well as the reproduction of social and political inequality despite increasing democratisation movements *Garden at Monceau* Carmontelle,2020-12-08 Carmontelle s landmark publication *Garden at Monceau* beautifully reproduced to show the Parisian garden s artistic and cultural importance before the French Revolution Originally published in 1779 *Garden at Monceau* is a richly illustrated presentation of the garden Louis Carrogis known as Carmontelle designed on the eve of the French Revolution for Louis Philippe Joseph d Orl ans duc de Chartres With its array of architectural follies intended to surprise and amaze the visitor the garden was a setting for ancien r gime social life Carmontelle s portrayal of his work in *Garden at Monceau* therefore serves as an expression of a key moment in the history of European landscape design garden architecture and social history This facsimile edition with its English language text and reproductions of the original engravings is accompanied by essays that interpret the landscape design and examine Carmontelle s larger career as a painter and theater producer
