Translation Frederic Charles Schaffer, 2000-07 Frederic C Schaffer challenges the assumption often made by American scholars that democracy has been achieved in foreign countries when criteria such as free elections are met Elections he argues often have cultural underpinnings that are invisible to outsiders To examine grassroots understandings of democratic institutions and political concepts Schaffer conducted fieldwork in Senegal a mostly Islamic and agrarian country with a long history of electoral politics Schaffer discovered that ideas of demokaraasi held by Wolof speakers often reflect concerns about collective security Many Senegalese see voting as less a matter of choosing leaders than of reinforcing community ties that may be called upon in times of crisis By looking carefully at language Schaffer demonstrates that institutional arrangements do not necessarily carry the same meaning in different cultural contexts Democracy in Translation asks how social scientists should investigate the functioning of democratic institutions in cultures dissimilar from their own and raises larger issues about the nature of democracy the universality of democratic ideals and the practice of cross cultural research

Records of the General Conference of the Protestant Missionaries of China Matthew Tyson Yates, 1878 The New England Farmer, 1857 **Miscellaneous Works** Macaulay, 1880 Records, 1878 **Won't You be My Neighbor** Camille Zubrinsky Charles, 2006-10-19 Los Angeles is a city of delicate racial and ethnic balance As evidenced by the 1965 Watts violence the 1992 Rodney King riots and this year's award winning film Crash the city's myriad racial groups coexist

uneasily together often on the brink of confrontation In fact Los Angeles is highly segregated with racial and ethnic groups clustered in homogeneous neighborhoods These residential groupings have profound effects on the economic well being and quality of life of residents dictating which jobs they can access which social networks they can tap in to and which schools they attend In *Won't You Be My Neighbor* sociologist Camille Zubrinsky Charles explores how modern racial attitudes shape and are shaped by the places in which people live Using in depth survey data and information from focus groups with members of L A s largest racial and ethnic groups *Won't You Be My Neighbor* explores why Los Angeles remains a segregated city Charles finds that people of all backgrounds prefer both racial integration and a critical mass of same race neighbors When asked to reveal their preferred level of racial integration people of all races show a clear and consistent order of preference with whites considered the most highly desired neighbors and blacks the least desirable This is even true among recent immigrants who have little experience with American race relations Charles finds that these preferences which are driven primarily by racial prejudice and minority group fears of white hostility taken together with financial considerations strongly affect people s decisions about where they live Still Charles offers reasons for optimism over time and with increased exposure to other racial and ethnic groups people show an increased willingness to live with neighbors of other races In a racially and ethnically diverse city segregated neighborhoods can foster distrust reinforce stereotypes and agitate inter group tensions *Won't You Be My Neighbor* zeroes in on segregated neighborhoods to provide a compelling examination of the way contemporary racial attitudes shape and are shaped by the places where we live *George C. Marshall: Ordeal and Hope, 1939-1942* Forrest C. Pogue, 2020-05-26 Covering the period between George C Marshall becoming Chief of Staff in September 1939 and the first military successes in 1942 Guadalcanal El Alamein Northwest Africa this volume describes how Marshall built up an army and air corps of fewer than 200 000 in 1939 with key players such as Harry Hopkins FDR s confidant Secretary of the Treasury Henry Morgenthau Secretary of War Henry Stimson President Roosevelt and Congress This work on Marshall continues to be the fine scholarly product that one expects from its author C P Stacey International Journal Dr Pogue has written a splendid account of the army high command in World War II It makes an important contribution to the history of our times and complements previously published memoirs and official histories The military specialist will be impressed by the systematic coverage Dr Pogue gives to the way in which Marshall used his staff and managed the war General readers will be fascinated by the new information provided about the characters and wartime actions of such leaders as Roosevelt Churchill MacArthur and Eisenhower This is a thoroughly satisfying book and a splendid companion to the first volume H A De Weerd The Virginia Quarterly Review The United States Sir John Dill told General Brooke has not repeat not the slightest conception of what the war means and their armed forces are more unready for war than it is possible to imagine Mr Pogue has as his subject the movement of the country from such material and spiritual limitation to the landings in North Africa and as his special thesis the contribution of General George C Marshall in the

production of this remarkable transition What General Marshall did was to plan negotiate organize and above all decide Mr Pogue s narrative is lean clear and well controlled What so often he is dealing with in these pages is the resolution of endless conflicts of prejudice and interest His capacity to recognize and define the issues in debate to expose with clinical balance the motives and feelings of the debaters to weigh out honestly the merits and defects of the conclusions reached is impressive and a valuable aid to fuller understanding Mr Pogue succeeds as well in giving the reader a good feeling for the administrative situation in which General Marshall spent most of his time how policies were developed officers selected for special tasks decisions taken and all the rest of it A solidly constructed carefully developed book Elting E Morison The Journal of Southern History This second volume of Forrest Pogue s long awaited authorized biography of General George C Marshall has reached the period of Marshall s first three years as Chief of Staff when he initiated the vast expansion of the US Army for World War II Excellent footnotes and detailed appendixes interviews and bibliographical notes will ensure Pogue s Marshall a permanent place in US military history and biography Trumbull Higgins The American Historical Review
