Prisoner Review Board** ,2014 **Fat in the Fifties** Nicolas Rasmussen,2019-03-26 A riveting history of the rise and fall of the obesity epidemic during 1950s and 1960s America Metropolitan Life Insurance Company identified obesity as the leading cause of premature death in the United States in the 1930s but it wasn't until 1951 that the public health and medical communities finally recognized it as America's Number One Health Problem The reason for MetLife's interest They wanted their policyholders to live longer and continue paying their premiums Early postwar America responded to the obesity emergency but by the end of the 1960s the crisis waned and official rates of true obesity were reduced despite the fact that Americans were growing no thinner What mid century factors and forces established obesity as a politically meaningful and culturally resonant problem in the first place And why did obesity fade from public and medical consciousness only a decade later Based on archival records of health leaders as well as medical and popular literature *Fat in the Fifties* is the first book to reconstruct the prewar origins emergence and surprising disappearance of obesity as a major public health problem Author Nicolas Rasmussen explores the postwar shifts that drew attention to obesity as well as the varied approaches to its

treatment from thyroid hormones to psychoanalysis and weight loss groups Rasmussen argues that the US government was driven by the new Cold War and the fear of atomic annihilation to heightened anxieties about national fitness Informed by the latest psychiatric thinking which diagnosed obesity as the result of oral fixation just like alcoholism health professionals promoted a form of weight loss group therapy modeled on Alcoholics Anonymous The intervention caught on like wildfire in 1950s suburbia But the sense of crisis passed quickly partly due to cultural changes associated with the later 1960s and partly due to scientific research some of it sponsored by the sugar industry emphasizing particular dietary fats rather than calorie intake Through this riveting history of the rise and fall of the obesity epidemic readers gain an understanding of how the American public health system ambitious strong and second to none at the end of the Second World War was constrained a decade later to focus mainly on nagging individuals to change their lifestyle choices Fat in the Fifties is required reading for public health practitioners and researchers physicians historians of medicine and anyone concerned about weight and weight loss

School Choice and the Betrayal of Democracy Robert Asen, 2021-10-04 Evidence shows that the increasing privatization of K 12 education siphons resources away from public schools resulting in poorer learning conditions underpaid teachers and greater inequality But as Robert Asen reveals here the damage that market based education reform inflicts on society runs much deeper At their core these efforts are antidemocratic Arguing that democratic communities and public education need one another Asen examines the theory driving privatization popularized in the neoliberalism of Milton and Rose Friedman as well as the case for school choice promoted by former secretary of education Betsy DeVos and the controversial voucher program of former Wisconsin governor Scott Walker What Asen finds is that a market based approach holds not just a different view of distributing education but a different vision of society When the values of the market choice competition and self interest shape national education that policy produces individuals Asen contends with no connections to community and no obligations to one another The result is a society at odds with democracy Probing and thought provoking **School Choice and the Betrayal of Democracy** features interviews with local on the ground advocates for public education and offers a countering vision of democratic education one oriented toward civic relationships community and equality This book is essential reading for policymakers advocates of public education citizens and researchers
