The Secret's Out Anthony Isaacs, 2020-11-23 The Secret's Out offers two program models Footsteps for those incarcerated and Reentry for released parolees to help avoid and decrease high numbers of behavioral problems by returning citizens currently experiencing addictions socially diminished lifestyles financial hardships and homelessness The Footsteps and Reentry models once utilized and embraced can restore a sense of purpose stability pride and focus to our returning citizens Footsteps has a unique program design with ten specialized areas of focus that deals with modern day realities and addresses unique issues in practical and productive ways Its holistic self help approach empowers individuals to actively participate in the transformation of their lives Its major goal is to assist our returning citizens while incarcerated with gaining the necessary skills and training to achieve independent living upon release Correctional institutions must examine and address the unique issues men and women are confronted with when entering the prison Often these men and women are still suffering from immediate effects of broken relationships and shock of the newfound incarceration As a result it is often difficult for them to adjust to the many rules and regulations imposed on them by a structured environmental program The Footsteps model is the foundation of the transformative thinking necessary for success upon release and the precursor for the second phase of the independent living framework Reentry for returning citizens The second phase of the transformation process is Reentry The Reentry model was created and developed as a guide to assist the reentry community with having a framework for success with our returning citizens It is very important that all reentry service providers speak the same language and have a clear understanding that there are different phases of the reentry process In this way we have a clear vision of the goals and can effectively monitor which phase a client has achieved and received services The long term goals of both program models are moving the clients toward independent living without risky behaviors that contribute to criminal mentality and negative outcomes It is also important to assist the returning citizen in understanding what mental health is and how to maintain mental health wellness There must be a discussion and exploration about the different ways stress and trauma impacts our well being as well as seeking and developing coping strategies such as stress reduction activities In addition the overall physical health and well being of the individual must be given a focus and individuals must be educated about affordable methods of healthy eating to guide them in maintaining their

physical health healthy lifestyle the importance of regular checkups and having proper medical coverage and a primary care physician It is the ability to have and enjoy gainful employment and independent housing It is the understanding of and enjoying a positive relationship with family and friends The Secret s Out is a book that provides a blueprint for correctional administrators correctional staff public officials reentry agencies and reentry organizations to use as a guide to effectively assist the men and women who have experienced incarceration and now seeking to gain the soft skills and training necessary to achieve employment and independent living *Inquiry* Nancy Fichtman Dana,Carol Thomas,Sylvia Boynton,2011-09-07 This book helps districts define develop and implement a systematic approach to districtwide professional development Its award winning inquiry model challenges participants to take control of their own learning The Caribbean Story Finder Sharon Barcan Elswit,2017-09-11 The Caribbean islands have a vibrant oral folklore In Jamaica the clever spider Anansi who outsmarts stronger animals is a symbol of triumph by the weak over the powerful The fables of the foolish Juan Bobo who tries to bring milk home in a burlap bag illustrate facets of traditional Puerto Rican life Conflict over status identity and power is a recurring theme in a story from Trinidad a young bull raised by his mother in secret challenges his tyrannical father who has killed all the other males in the herd One in a series of folklore reference guides by the author this volume shares summaries of 438 tales some in danger of disappearing retold in English and Creole from West African European and slave indigenous cultures in 24 countries and territories Tales are grouped in themed sections with a detailed subject index and extensive links to online sources They Also Write for Kids Suzanne Manizza Roszak,2022-12-28 Outside the world of children s literature studies children s books by authors of well known texts for adults are often forgotten or marginalized Although many adults today read contemporary children s and young adult fiction for pleasure others continue to see such texts as unsuitable for older audiences and they are unlikely to cross read children s books that were themselves cross written by authors like Chinua Achebe Anita Desai Joy Harjo or Amy Tan Meanwhile these literary voices have produced politically vital works of children s literature whose complex themes persist across boundaries of expected audience These works form part of a larger body of activist writing for children that has long challenged preconceived notions about the seriousness of such books and ideas about who in fact should read them They Also Write for Kids Cross Writing Activism and Children s Literature seeks to draw these cross writing projects together and bring them to the attention of readers In doing so this book invites readers to place children s literature in conversation with works more typically understood as being for adult audiences read multiethnic US literature alongside texts by global writers consider children s poetry and nonfiction as well as fiction and read diachronically as well as cross culturally These ways of reading offer points of entry into a world of books that refuse to exclude young audiences in scrutinizing topics that range from US settler colonialism and linguistic prejudice to intersectional forms of gender inequality The authors included here also employ an intricate array of writing strategies that challenge lingering stereotypes of children s literature as artistically as well as intellectually simplistic They

subversively repurpose tropes and conventions from canonical children's books embrace an epistemology of children's literature that emphasizes ambiguity and complexity invite readers to participate in redefining concepts such as civilization and cultural belonging engage in intricate acts of cross cultural representation and re envision their own earlier works in new forms tailored explicitly to younger audiences Too often disregarded by skeptical adults these texts offer rich rewards to readers of all ages and here they are brought to the fore **Inhabiting La Patria** Rebecca L.
