them astray Conditions worsened This fourth attempt was built on knowledge learned from previous attempts with new features added Originating in Western Europe and the British Isles its way of life became known as Modern Western Civilization Through international trade colonization and missionary work its benefits were taken to the rest of the world In the 300 years after 1700 CE its adoption by many people doubled human life expectancy increased humanity s population ten fold and removed more people from the relative poverty of their ancestors than all previous civilizations combined Modern Western Civilization is an attitude not a geographic location Adopting that attitude enables people to work out the best thing to do Within countries and communities the more people adopt that attitude the better off they will be This tells the origins of common sense among the populace and shows the benefits it generated for them Centuries later their elite changed their followers attitude That led to the downfall of the three previous attempts Living standards plummeted Despite the obvious benefits this fourth attempt has given to humanity the current elite seem intent on removing common sense from within the Modern Western World Living standards are already declining As was once said they know not what they do It is time to make common sense common again **Interpretation Of Statutes** Kafaltiya A.B.,2008 *Volumes 34 to 44 incl.
