A Step-by-Step Guide to Help You Meet, Attract, and Date the Girl of Your Dreams –

Written by a Woman Who Knows.

Tiffany Taylor

## *Introduction –*

### *What Women Really Want*

Women are complicated creatures. I should know – I am one.

We unintentionally intimidate men who spend countless hours trying to transform themselves into the kind of man they think women desire. I believe every man has it in him to become irresistible to women – regardless of their age, income, or experience with the opposite sex.

In this guide, I'm going to confess to some of women's most guarded tactics. I'm going to show you how we manipulate you, how you can manipulate us, and what actions (and in-actions) can help you get the woman of your dreams – forever or for only one night.

I feel like a Benedict Arnold of sorts – a traitor to my gender in spilling all of our secrets, but I also feel like it's time men had the upper hand when it comes to women and our ways of slithering through the dating scene.

We often wield the power at the beginning of the relationship simply because tradition dictates that a man is supposed to ask the woman out. You're supposed to impress us, gather up the courage to ask us out, pay for our dinners, and generally tempt us into giving you what you want.

**Happy Single?** Arnaud van der Veere, 2021-02-07 All over the world, the number of singles is increasing. With the rise of the economy, people are able to keep a form of independence. Education and economic status promote individuality. The need to commit yourself to another person becomes less important. In many countries, women get more space to have their own career and education. The male dominance is fading increasingly everywhere. One of the most important facts in history is the decrease of religious practice promoting male dominance with a following obedient female. Since only around 50 years ago, women began to develop a strong sense of independence and are able to get a social position. The social stigma of a single woman is disappearing. One important reason why women more often chose for a single life position is due to the lack of good suitable men. Men have built philosophies, religions, and believe that women should be followers and obedient to men. When they designed these moral repressive ideas, they did not consider the fact that women could develop above their level. Now many men get hit by their own ancestors. It is an ironical faith.
