Fox, 2004-10-06 An ethnographic study of country music and the bars life and everyday speech of its rural fans *An Army of Stories* Roger Mason, 2015-06-23 Private First Class R was an excellent soldier so it was unlike him to be late When he came in a few minutes later I could see by the grim look on his face that something was terribly wrong He immediately began to cry and tell me that his wife had miscarried the child they had so badly wanted I had never seen anyone cry as much as he did that morning and one box of tissues simply was not enough After a while the front of his uniform was soaked from his many tears and I felt horrible seeing him suffer It was one of those times when I would have

moved Heaven and Earth if I could have but I could not It humbled me because I wanted to order someone to do something to fix the problem but this time it would not be that simple I had always taken pride in looking out for the welfare of the soldiers in my charge but this time was different I knew I was not a miracle worker but I felt I had let him down because as much as I wanted to I did not have the power to bring back his baby It was the worst day of my Army career because a good soldier who looked up to me for wisdom and guidance was in peril and there was nothing I could do I felt like a weakened Superman hopelessly dragging his feet through a field of Kryptonite because there I was with all my rank and power that the Army had entrusted in me but I was useless to him

The Story of the Human Body Daniel Lieberman, 2013-10-03 Story of the Human Body explores how the way we use our bodies is all wrong From an evolutionary perspective if normal is defined as what most people have done for millions of years then it's normal to walk and run 9-15 kilometers a day to hunt and gather fresh food which is high in fibre low in sugar and barely processed It's also normal to spend much of your time nursing napping making stone tools and gossiping with a small band of people Our 21st century lifestyles argues Dan Lieberman are out of synch with our stone age bodies Never have we been so healthy and long lived but never too have we been so prone to a slew of problems that were until recently rare or unknown from asthma to diabetes to scariest of all overpopulation Story of the Human Body asks how our bodies got to be the way they are and

considers how that evolutionary history both ancient and recent can help us evaluate how we use our bodies How is the present day state of the human body related to the past And what is the human body s future Daniel Lieberman is the Chair of the Department of Human Evolutionary Biology at Harvard and a leader in the field He has written nearly 100 articles many appearing in the journals Nature and Science and his cover story on barefoot running in Nature was picked up by major media the world over His research and discoveries have been highlighted in newspapers and magazines including The New York Times The Boston Globe Discover and National Geographic
