Garrett,2012-09-03 On January 20 1984 Earl Washington defended for all of forty minutes by a lawyer who had never tried a death penalty case was found guilty of rape and murder in the state of Virginia and sentenced to death After nine years on death row DNA testing cast doubt on his conviction and saved his life However he spent another eight years in prison before more sophisticated DNA technology proved his innocence and convicted the guilty man DNA exonerations have shattered confidence in the criminal justice system by exposing how often we have convicted the innocent and let the guilty walk free In this unsettling in depth analysis Brandon Garrett examines what went wrong in the cases of the first 250 wrongfully convicted people to be exonerated by DNA testing Based on trial transcripts Garrett s investigation into the causes of wrongful convictions reveals larger patterns of incompetence abuse and error Evidence corrupted by suggestive eyewitness procedures coercive interrogations unsound and unreliable forensics shoddy investigative practices cognitive bias and poor lawyering illustrates the weaknesses built into our current criminal justice system Garrett proposes practical reforms that rely more on documented recorded and audited evidence and less on fallible human memory Very few crimes committed in the United States involve biological evidence that can be tested using DNA How many unjust convictions are there that we will never discover Convicting the Innocent makes a powerful case for systemic reforms to improve the accuracy of all criminal cases **Gothic Classics: 60+ Books in One**

Innocent Subjects Terese Jonsson,2020-12-20 In a time of intensified global white supremacist and patriarchal violence anti racist feminist movements and analyses have never been more vital Women of colour are at the forefront of these struggles worldwide but are white feminists really by their side Despite a rich history of Black and postcolonial critiques of racist and imperial feminist politics racism still exists within contemporary British feminism To explain why Terese Jonsson examines the history of feminism over the last forty years She argues that Black feminism s role in shaping the movement has been marginalised through narratives which repeatedly position white women at the centre of the story from the women s liberation movement in the 1970s to today Analysing the ways in which whiteness continues to pervade feminist literature as well as feminist debates in the liberal media Jonsson demonstrates that despite an increased attention to race intersectionality and difference stories told by white feminists are shaped by their desire to maintain an innocent position towards racism
