**at School** Anna Sullivan,Bruce Johnson,Bill Lucas,2016-05-20 This is a deliberately provocative book It critiques current student behaviour management practices seeks to explain the flawed assumptions that justify those practices and proposes how things could be better for children in our schools if different practices were adopted It is one of the few books to offer alternative ways of addressing the issues associated with student behaviour at school and exposes the field to serious and sustained critique from both a research perspective and a children s rights ideological stance The authors address the following questions What ideas dominate current thinking on student behaviour at school What are the policy drivers for current practices What is wrong with common behaviour approaches What key ideologies justify these approaches How can we present ethical alternatives to current approaches How can a human rights perspective contribute to the development of alternative approaches In exploring these questions and some ethical alternatives to the status quo the authors suggest practical ways to answer back to calls for more authoritarian responses to student behaviour within our schools In doing so the authors advocate for reforms on behalf of children and in their interests      **Student-oriented Program** National

Growing Up Suburban Edward A. Wynne, 2014-09-10 The prosperous comfortable and homogeneous American suburb is a relatively recent institution in American history Edward Wynne was one of the first to take a serious look at the quality of suburban childhood where he contends we have ignored the developments affecting the largest pool of children and parents in America This provocative volume argues that the total environment of the suburban youth the school the community the family and the workplace is in need of drastic reform Wynne advances a forthright argument for the preservation of traditional moral values and criticizes excessive individualism in fragmented modern society Focusing on the schools and extending his discussion to the larger community he pleads for more attention to such goals as honesty persistence patriotism and loyalty Post industrial suburban environments Wynne argues do not provide the diversity of experience children must have to become successful adults Strong community ties to the schools are basic to Wynne's thesis Within the schools he recommends changes in grading systems student responsibilities and assignments selection and training of teachers and administrators structuring and evaluation of programs and the socioeconomic and age mix of pupils A feeling of cooperation and unity within the school itself is a major goal Wynne also suggests steps for moving toward more heterogeneous close knit communities where citizens have greater local control For example community members could restrict movement into the community and should aim for a mix of blue and white collar residents Wynne's arguments clearly run counter to fashion and are sure to provoke a high level of debate among educators of differing philosophic persuasions Civil libertarians feminists civil rights advocates and others are bound to make spirited replies to many of Wynne's contentions Growing Up Suburban will be of interest to educators public school administrators parents and suburban dwellers

Be the Change Linda Darling-Hammond, Nicole Ramos-Beban, Rebecca Padnos Altamirano, Maria E. Hyler, 2016-01-03 Be the Change tells the remarkable story of an innovative public high school launched by dedicated teachers in East Palo Alto California one of a growing number of low income communities starved of the resources needed to serve its students and schools Chronicling a rags to riches story of how two very different communities came together to change the historical trajectory of educational failure that had robbed so many students of their futures Be the Change demonstrates how to plant the seeds of new possibilities in its place The school's unique design modeled after successful small schools in New York City offers authentic and engaging instruction in a personalized setting that has allowed students who start off far behind to graduate and go on to college in record numbers Each chapter examines one of the critical elements the teachers found essential to enable student success the creation of an academic culture the development of high standards with high supports and the process of learning to teach so that students can learn A powerful and compelling tale about how educators parents and representatives of one of America's most powerful universities came together to create a school that is now a beacon of pride and hope Their struggle to overcome the obstacles they encountered along the way will

inspire others who seek to find ways to use education as a means to break the cycle of poverty and to expand opportunity and justice Pedro A Noguera distinguished professor of education Graduate School of Education and Information Sciences UCLA This is the story of a little school that could Could get students to college and beyond that is It s filled with evidence quotes and anecdotes but more importantly it demonstrates that will and skill aligned with vision and values results in learning environments in which students thrive While acknowledging the challenges trials and tribulations of creating and leading an urban high school the authors share their success in a passionate and compelling way inviting others to learn alongside them as they build successful futures for their students Douglas Fisher professor of educational leadership San Diego State University With demanding academics loving support and genuine affirmation the staff parents community members and other supporters of EPAA as well as Stanford faculty and staff present an encouraging picture of the kind of high school all young people deserve This kind of success is not easy but in describing how it can be done Linda Darling Hammond and her co authors have provided a stirring example for all of those interested in equity and hope for our public schools Sonia Nieto professor emerita Language Literacy and Culture College of Education University of Massachusetts Amherst
