The Science Of The Bible:

The Science of the Bible Martin Brennan, Rev Martin S Brennan Am, Brother Hermenegild, 2014-11-06 THESE pages aim to give an honest presentation of the branches of science touched upon in the Sacred Scriptures as compared with the same branches studied from a purely natural or secular standpoint Astronomy Optics Geology Biology and Anthropology in many portions of the Bible stand out in clear prominence therefore these branches will form the subject matter of my comparative study The fair blinded reader will I think be convinced that no well established fact or principle of science is contradictory to any passage of the Bible properly and honestly interpreted There is no bending of science to suit the scriptural text The teachings of science drawn from the latest and most correct sources are put down independently of any ulterior motive The passages of Scripture said to contradict science are then taken up and the apparent conflict is harmonized Science has undoubtedly made transcendent progress within recent years This progress is due in great measure to the continual changes occasioned by the rapid frequency of new discoveries Indeed there is no feature of science as extraordinary as its changeableness The science of twenty years ago is to day almost obsolete Every new discovery puts in hazard or greatly modifies some old favorite theory The science text books of our youthful days would be much more harmful than helpful in the hands of the pupils of to day Under such circumstances is it not strange indeed to see the arrogance with which many so called scientists condemn everything that stands in the way of their ephemeral theories The holiest convictions and most sacred and best established traditions of the race must vanish at the touch of these sciolists However it can be truthfully stated that it is only the braggadocios and tyros of science that are so presumptuous Or to be more precise this arrogance is but the expression of agnosticism parading in the garb of science The great men who have done most for science are not of this temper The Copernicuses Newtons Ampers Faradays Oersteds and Henrys were modest men The great physicist Clerk Maxwell declared towards the close of his life that all the agnostic hypotheses he had ever known need a God to make them workable Sir William Thonlpson professor of natural philosophy in Glasgow University and who has probably done more for the advancement of physical science than any other living man had this to say recently One word characterizes the most strenuous of the efforts for the advancement of science that I have made perseveringly through fifty five years that word is failure I know no more of electric and magnetic force or of the relation between ether electricity and ponderable matter or of chemical affinity than I knew and tried to teach tly students of natural philosophy fifty years ago in my first session as professor A considerable amount of space comparatively is devoted in these pages to Geology although it would appear that only a few passages of scripture really bear upon this science Still Geology in one of its branches Paleontology or the science of fossils enters largely into Biology Anthropology the treatment of the questions of the Antiquity of man and the Deluge What we know of prehistoric Biology and Anthropology we learn entirely from the study of fossils Hence a great deal of Geology is given which may at first sight seem unnecessary or even foreign to the subject matter under

consideration But to avoid continual reference to Geology when treating of the other sciences I thought it best to give all its results under one caption The Science of the Bible Martin Stanislaus Brennan,1898 **The Science of the Bible (Classic Reprint)** Martin S. Brennan,2017-12-24 Excerpt from The Science of the Bible There is no bending of science to suit the script ural text The teachings of science drawn from the latest and most correct sources are put down inde pendentl y of any ulterior motive The passages of Scripture said to contradict science are then taken up and the apparent con ict is harmonized Science has undoubtedly made transcendent prog ress within recent years This progress is due in great measure to the continual changes occasioned by the rapid frequency of new discoveries Indeed there is no feature of science as extraordinary as its changeableness About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **The Science of the Bible** Milton Woolley,1877 *The Marriage of Science and the Bible* David Berg,2020-05-04 The Marriage of Science and the Bible is an adventure in new concepts I invite you to explore them with me We will investigate God s scientific credentials We will witness his authority over physical science We will see how he is applying the logic of science to human history Our Creator introduced the scientific method Examining his predictions hypotheses we can judge their accuracy across 4 000 years of human history Evaluate use of science of history Begin with secrets of the universe revealed long before modern satellites Inspect a mathematically specific prediction of the coming of Jesus Christ Does the Creator speak in absolutes Does absolute truth exist Consider the complexity of predicting the themes of history and future events No man can do it Recognize the unparalleled importance of God s expansion of science Discover Jesus s description of biblical biology biblical physics and biblical chemistry in God s design for human life Consider why the availability of the Bible in the languages of Northern Europe resulted in the birth of modern science Follow the flaw in human philosophy to Darwin s theory Is it important that astrophysicists are linking the biblical account of creation with twentieth and twenty first century scientific discoveries Personally confirm the science of history by viewing God s hypotheses and current events in Israel Discover the purpose of human history It s an adventure in reality The Christian View of Science and Scripture Bernard L. The Science of God Gerald L. Schroeder,1997 Schroeder Genesis and the Big Bang LJ 9 15 90 is an Israeli physicist and scholar of Genesis who maintains that a properly understood Bible and a properly understood science provide consistent sets of data In recent decades scientific discoveries in cosmology paleontology and quantum physics do not demonstrate or prove the activity of God but they do remove conflict with that activity Rapprochement occurs when believers read the Bible on the Bible s terms avoiding literalism and when scientists realize that science is powerless to pronounce on a purpose forlife Schroeder is very lucid in explaining difficult scientific concepts such as the passage of time according to the theory of relativity and religious data such as the original Hebrew words Schroeder s careful and responsible handling of the data on origins from science and Genesis 1 combined with a fresh judicious correlation between the two is compelling The Science of the Bible Martin Stanislaus Brennan,2022-10-27 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **SCIENCE OF THE BIBLE** Martin S. An Introduction to the Science of the Bible John Lloyd Morgan,1948 **The Biblical Basis for Modern Science** Henry Morris,2020-02-11 The Bible is Indeed a Book of Science Revealed By God We live in a scientific age and the proliferation of scientific knowledge and the resulting technologies seem almost endless Scientific discoveries and developments however can be a danger as well as a blessing to mankind The modern world is desperately in need of God s own wisdom concerning the purpose and meaning of true science When you move beyond modern assumptions and false preconceptions the Bible is found to not only reveal a thoroughly modern perspective on the real facts and principles of science but also to provide wisdom and guidance concerning its proper role in human life Biology is the science of life and Christ himself is life Geology is the science of the earth and He is the Creator of the ends of the earth We also could speak of other sciences but all must ultimately be ascribed to Christ True knowledge of any component of His creation must depend ultimately on the knowledge of Christ and His Word Reveals biblical insights for cosmology astronomy physics thermodynamics chemistry geology paleontology biology anthropology and more Brings to light how scientific and statistical evidence rationally evaluated favor God over evolution

Science and the Bible Herbert William Morris,1873 *The Science and Art of Religion* Samuel Biggar Giffen McKinney,1888 The Treasury ,1884 **The Science of God** Gerald L. Schroeder,1997 Many of us would like to reconcile our faith in science with our belief that the Bible is Truth *The Science of the Bible. [Talks Given at Gas Industry House, London.].* John Williams Doorly,1947 **Contradictions Between Science and the Bible** Wilmar Benting Franco,2024-11-13 Science and the Bible Exploring the Harmony Between Creation and Knowledge In Science and the Bible Exploring the Harmony Between Creation and Knowledge the author delves into the fascinating contradictions and intersections between modern scientific understanding and the timeless wisdom of the Bible While many view science and scripture as opposing forces this book challenges that perception by showing how these two realms of knowledge can actually complement each other particularly when it comes to the creation of the Earth and the mysteries of human existence The book tackles fundamental questions including Can science and the Bible harmonize in explaining the formation of the universe What does the Bible say about the soul and what can science reveal about its existence after death How can the heart often associated with love in the Bible also be described as wicked Where is knowledge truly stored in the brain the spirit or the soul What unique insights can only be found in this book that bridge the gap between science and scripture Through a detailed analysis of both the Biblical account of creation and contemporary scientific theories this book explores the origin of the Earth from two perspectives theoretical and Biblical seeking common ground between them By closely examining the Holy Scriptures the author uncovers how certain Biblical passages align with

modern scientific findings about the creation of the Earth and the cosmos The book also delves into profound topics such as the nature of love destiny and hell questioning how the Bible s metaphysical teachings can be understood in light of scientific discoveries It offers an in depth look at whether the soul and spirit reside within the brain or whether they transcend the physical realm and whether there is truly life after death Written with a balanced and thought provoking approach Science and the Bible Exploring the Harmony Between Creation and Knowledge encourages readers to reflect on the possibility that faith and reason need not be in conflict Instead they may work together to offer a more complete understanding of the universe and our place within it **The Science of Correspondences Elucidated** Edward Madeley, 1883
