Roure,2025-04-23 Roure draws a novel connection between Tommaso Campanella s utopian ideas for Imperial Spain and Catholicism and Portuguese navigator Pedro Fern ndez de Quir s vision of an idyllic society and a mythical city of New Jerusalem in the antipodes The book presents newfound evidence suggesting Spain experimented with Messianism to secure their empire in the late Renaissance The case is made that the Spanish monarchy contemplated Campanella s

Messianic ideas and sent Quir s to initiate them on the imagined Terra Australis Incognita Campanella and Quir s shared idiosyncratic beliefs that by means of divine providence Spanish power would imminently transform the world elevate humanity to a higher spiritual plane dominate politics and religion and prepare for the second coming The work advances our understanding of previously unknown links amongst Campanella s religious solutions for idealising temporal government Quir s s objective of a utopian society in the great south land and Spain s tentative experimentation with Messianism It also permits the drawing of inferences on the possible rationale behind political messianism in the contemporary world This book is a valuable resource for scholars students researchers and professionals interested in European and World History of the late Renaissance as well as those interested in the religious and political imperatives of Imperial Spain during the Habsburg period Classical Civilisation and Ancient History in British Secondary Education Edith Hall,Arlene
