## **The Storytelling Animal How Stories Make Us Human:**

The Storytelling Animal Jonathan Gottschall, 2012 A provocative scholar delivers the first book on the new science of storytelling the latest thinking on why we tell stories and what stories reveal about human nature **The Storytelling Animal** Jonathan Gottschall, 2020-06-11 Insightful draws from disparate corners of history and science to celebrate our compulsion to storify everything around us The New York Times Book Review Humans live in landscapes of make believe We spin fantasies We devour novels films and plays Even sporting events and criminal trials unfold as narratives Yet the world of story has remained an undiscovered and unmapped country It s easy to say that humans are wired for story but why In this delightful original book Jonathan Gottschall offers the first unified theory of storytelling He argues that stories help us navigate life s complex social problems just as flight simulators prepare pilots for difficult situations Storytelling has evolved like other behaviors to ensure our survival Drawing on the latest research in neuroscience psychology and evolutionary biology Gottschall tells us what it means to be a storytelling animal Did you know that the more absorbed you are in a story the more it changes your behavior That all children act out the same kinds of stories whether they grow up in a slum or a suburb That people who read more fiction are more empathetic Of course our story instinct has a darker side It makes us vulnerable to conspiracy theories advertisements and narratives about ourselves that are more truthy than true National myths can also be terribly dangerous Hitler s ambitions were partly fueled by a story But as Gottschall shows stories can also powerfully change the world for the better We know we are master shapers of story The Storytelling Animal finally reveals how stories shape us Lively San Francisco Chronicle Absorbing Minneapolis Star Tribune One of my favorite evolutionary psych writers always insightful and witty Steven Pinker The Art of Public Writing Zachary Michael Jack, 2020-10-28 Today s professionals recognize the need to elevate written communication beyond argument driven pedantry political polemic and obtuse pontification Whether the goal is to write the next serious work of best selling nonfiction to develop a platform as a public scholar or simply to craft clear and concise workplace communication The Art of Public Writing demystifies the process showing why it s not just nice but necessary to connect with those inside and outside one s area of expertise Drawing on a diverse set of examples ranging from Charles Darwin s On the Origin of Species to Steven Levitt s Freakonomics Zachary Michael Jack offers invaluable advice for researchers scholars and working professionals determined to help interpret field specific debates for wider audiences address complex issues in the public sphere and successfully engage audiences beyond the Corner Office and the Ivory Tower *Change* Jeffrey A. Kottler, 2018-03-12 What causes human beings to make a significant change in their lives a transformative shift in thinking and actions Research has shown that even in cases of unqualified success a therapist and their client often have wildly different views on what made it work Taking that as his starting point Jeffrey Kottler leads the reader on an exploration of human behaviour seeking to find out what it is that really makes a difference that can lead to transformative and lasting change Assisting Intelligence Mike P

Screen Stories Carl R. Plantinga, 2018 The way we communicate with each other is vital to preserving the cultural ecology or wellbeing of a place and time Do we listen to each other Do we ask the right questions Do we speak about each other with respect or disdain The stories that we convey on screens or what author Carl Plantinga calls screen stories are one powerful and pervasive means by which we communicate with each other Screen Stories Emotion and the Ethics of Engagement argues that film and media studies needs to move toward an approach to ethics that is more appropriate for mass consumer culture and the lives of its citizens Primarily concerned with the relationship between media and viewers this book considers ethical criticism and the emotional power of screen stories that makes such criticism necessary The content we consume from television shows and movies to advertisements can significantly affect our welfare on a personal and societal level and thus this content is subject to praise and celebration or questioning and even condemnation The types of screen stories that circulate contribute to the cultural ecology of a time and place through shared attention they influence what individuals think and feel Plantinga develops a theory of the power of screen stories to affect both individuals and cultures asserting that we can better respond ethically to such media if we understand the sources of its

influence on us      **What You Don't Know about Leadership, But Probably Should** Jeffrey A. Kottler, 2018 We live in a world of groups Almost every facet of daily existence whether sitting in meetings collaborating with coworkers attending classes or programs contributing to community or social events participating in family gatherings even enjoying coffee or meals with friends takes place in group contexts In addition everyone finds themselves in leadership positions at one time or another responsible for the welfare of others It is curious but nevertheless commonplace that counselors therapists teachers business leaders executives coaches and other helping professionals who have been specifically trained in group leadership often fail to apply their knowledge and skills to settings in which they might matter most The same practitioners who guide others may not be able or willing to put that background to work when they find themselves supervising peers leading meetings or even managing conflict at the dinner table Many if not most people experience required meetings and mandated group collaborations as tedious repetitive and often a waste of time that could be spent doing other things that feel far more productive

**The Theological Imperative to Authenticity** Christy Capper, 2022-11-04 From a theological viewpoint this book explores the junction between the philosophical existential idea of the authentic self and its cultural appropriation The text builds on the theology of John Macquarrie and the narrative formation of identity to construct a theological definition of authentic selfhood It then contrasts this definition with the common idea that authenticity in the moral sense can be used to justify any action The author argues that this is not genuine authenticity Instead they consider that authenticity rests upon loyalty to something greater than oneself and for Christians this is the character of the God in whose image they are created and are being formed This book is illuminating reading for students and scholars of theological anthropology pastoral theology ethics and moral philosophy

**Broken** Paul LeBlanc, 2022-09-27 Many of the systems built to serve people instead do more harm than good In *Broken* Dr Paul LeBlanc

president of Southern New Hampshire University draws on his experience working in one such system education to reconnect us to the human facets of serving people In doing so he charts a course for rebuilding and reinhabiting better systems across education healthcare criminal justice government and more The United States spends enormous sums on helping people 3 8 trillion on healthcare 182 billion on prisons and 604 billion on higher education and yet these systems routinely fail us When we seek to improve how they function our efforts focus on policy debates technical solutions funding and data But if these systems are to truly improve we have to start with the human values that fuel decision making Broken explores the deeply human dimensions we must consider aspiring discovering mattering if we want to rebuild the policies technologies processes and most importantly the heart we use to serve people Over the course of 25 years as a college and university president and higher education innovator Paul LeBlanc PhD has encountered innumerable wonderful people who want to do the right thing for students but whose efforts cannot overcome the shortcomings of the system Now he shares what he s learned and continues to learn about the opportunities and necessity to put humanity and care at the center of all our systems With Broken LeBlanc outlines the distinctly human questions that education and all systems that serve must start asking to reframe what is broken in order to make lasting repairs and to better care for those they serve See My Body, See Me Pamela F. Engelbert, 2024-09-26 MeToo ChurchToo pentecostalsisterstoo Since 2018 hashtags and stories of sexual violence have appeared in all sectors of life from Hollywood to the Olympics from politics to religion from universities to seminaries and among pentecostals But amid all these stories of sexual abuse and assaults one may wonder if any stories of healing from sexual violence exist If so what does healing look like particularly among pentecostals who believe in divine healing Is it a single prayer of faith or a conglomeration of healing factors In true pentecostal form See My Body See Me systematically examines the healing stories of eight pentecostal survivors and the experiences of five pentecostal licensed counselors It then combines these experiences of both males and females with Scripture theology psychology and culture to provide a pentecostal perspective on healing from sexual violence As a practical theological approach See My Body See Me also offers acts of ministry to provide healing spaces by way of three embodied praxes that are historically and theologically pentecostal listening waiting and learning See My Body See Me is an invitation to participate in Christ s healing ministry to see hear and believe survivors as God sees hears and believes them
