Integrity and Well-being, 2018 **Research Handbook on International Law and Environmental Peacebuilding** Daniëlla Dam-de Jong, Britta Sjöstedt, 2023-08-14 This is an open access title available under the terms of a CC BY NC ND 4.0 License It is free to read download and share on Elgaronline.com This incisive Research Handbook addresses the growing recognition within the international law community that natural resource governance and environmental protection are crucial aspects of peace processes both as a security imperative and as an opportunity for peacebuilding Examining the impact of international normative and institutional frameworks on environmental peacebuilding this Research Handbook features contributions from distinguished experts and global case studies on integrated legal approaches to the governance of natural resources Partnerships, Power and Peacebuilding T. Dibley, 2014-09-03 By highlighting the scope and limitations of local NGO agencies this book presents a unique perspective of the relationship between peacebuilding theory and its application in practice outlining how well educated well connected local decision makers and thinkers navigate the uneven power dynamics of the international aid system *The Oxford Handbook of Religion, Conflict, and Peacebuilding* Atalia Omer, R. Scott Appleby, David Little, 2015 The book provides a comprehensive overview of the literature on religion conflict and peacebuilding With a focus on structural and cultural violence the volume also offers a cutting edge interdisciplinary reframing of the scope of scholarship in the field **Pursuing Just Peace: An Overview and Case Studies for Faith-Based Peacebuilders** Mark M. Rogers, Tom Bamat, Julie Ideh, 2008-03-24 This book on faith based peacebuilding is a practical resource for peacebuilding practitioners and all others who are grappling with injustice and conflict Seven case studies describe concrete initiatives within highly diverse contexts Three case studies focus on strengthening internal church peacebuilding capacity through peace education one looks at the role of alliances and networks in advocacy for addressing gender based violence and three focus on ecumenical and inter religious collaboration An introductory essay provides a general overview and literature review for faith based peacebuilding discusses processes and describes key roles that faith based actors can play *Decolonizing Religion and Peacebuilding* Atalia Omer, 2023 An investigation of what consolidating religion as a technology of peacebuilding and development does to people's accounts of their religious and cultural traditions and why interreligious peacebuilding entrenches colonial legacies in the present Throughout the global south local and international organizations are frequent participants in peacebuilding projects that focus on interreligious dialogue Yet as Atalia Omer argues in *Decolonizing Religion and Peacebuilding* the effects of their efforts are often perverse reinforcing neocolonial practices and disempowering local religious actors Based on empirical research of inter and intra religious peacebuilding practices in Kenya and the Philippines Omer identifies two paradoxical findings first religious peacebuilding practices are both empowering and depoliticizing and second more doing of religion

does not necessarily denote deeper or more critical religious literacy Further she shows that these religious actors generate decolonial openings regardless of how closed or open their religious communities are Hence religion s occasional usefulness in peacebuilding does not necessarily mean justice oriented outcomes The book not only uses decolonial and intersectional prisms to expose the entrenched and ongoing colonial dynamics operative in religion and the practices of peacebuilding and development in the global South but it also speaks to decolonial theory through stories of transformation and survival
