**The Energy of Forgiveness** Mark S. Umbreit, Jennifer

Blevins, Ted Lewis,2015-07-15 Forgiveness is a profound life changing experience for many people who have been hurt by others But forgiveness is paradoxical in that if one relies on forgiveness language or if others prescribe it as an expectation the depth of that experience can be significantly compromised By the same token many people experience deep forgiveness without ever using the language of forgiveness Most of the stories in this book testify to how forgiveness is experienced primarily as an inner unburdening of negative emotions a process that is aided by safe facilitated dialogue with the offending party New research on the benefits of forgiveness is on the rise these days yet there is often little narrative to show the power of forgiveness The authors present more than twelve case studies that led up to restorative dialogue processes where parties chose to meet together Whether the case involves the murder of a loved one a burglary or the buildup of workplace tensions a common pattern emerges as both parties encounter the true humanity of the other person the negative energy stemming from the offense is transformed into a positive energy that gives both parties a deep inner peace and new freedom

Feminist Accountability Ann Russo,2018-12-04 Explores accountability as a framework for building movements to

transform systemic oppression and violence What does it take to build communities to stand up to injustice and create social change How do we work together to transform without reproducing systems of violence and oppression In an age when feminism has become increasingly mainstream noted feminist scholar and activist Ann Russo asks feminists to consider the ways that our own behavior might contribute to the interlocking systems of oppression that we aim to dismantle *Feminist Accountability* offers an intersectional analysis of three main areas of feminism in practice anti racist work community accountability and transformative justice and US based work in and about violence in the global south Russo explores accountability as a set of frameworks and practices for community and movement building against oppression and violence Rather than evading the ways that we are implicated complicit or actively engaged in harm Russo shows us how we might cultivate accountability so that we can contribute to the feminist work of transforming oppression and violence Among many others Russo brings up the example of the most prominent and funded feminist and LGBT antiviolence organizations which have become mainstream in social service advocacy and policy reform projects This means they often approach violence through a social service and criminal legal lens that understands violence as an individual and interpersonal issue rather than a social and political one As a result they ally with rather than significantly challenge the state institutions policies and systems that underlie and contribute to endemic violence Grounded in theories analyses and politics developed by feminists of color and transnational feminists of the global south with her own thirty plus years of participation in community building organizing and activism Russo provides insider expertise and critical reflection on leveraging frameworks of accountability to upend inequitable divides and the culture that supports them *Listening to the Movement* Ted Lewis, Carl

Stauffer, 2021-02-19 Restorative justice is spreading like wildfire across the globe How can we explain this burst of energy This anthology makes the bold claim that restorative justice is a vibrant social justice movement It is more than a great idea gone viral more than the extension of the legal system and more than enacting new legislation Beginning in 2015 the contributors of this volume took part in a series of dialogues sponsored by the Zehr Institute for Restorative Justice exploring the contours of the restorative justice movement Each one writes from the burgeoning edges of their own context inviting readers to consider the fidelity and integrity of the movement's growth As a cadre the authors highlight new locations of restorative justice application race pedagogy ecology youth organizing community violence reduction and more These diverse voices put forward a fast paced hard hitting glimpse into the pulse of restorative justice today and what it may look like tomorrow *Restorative Justice* Theo Gavrielides, 2017-09-19 The legitimacy and performance of the traditional criminal justice system is the subject of intense scrutiny as the world economic crisis continues to put pressure on governments to cut the costs of the criminal justice system This volume brings together the leading work on restorative justice to achieve two objectives to construct a comprehensive and up to date conceptual framework for restorative justice suitable even for newcomers and to challenge the barriers of restorative justice in the hope of taking its theory and practice a

step further The selected articles start by answering some fundamental questions about restorative justice regarding its historical and philosophical origins and challenge the concept by bringing into the debate the human rights and equality discourses Also included is material based on empirical testing of restorative justice claims especially those impacting on reoffending rates victim satisfaction and reintegration The volume concludes with a critique of restorative justice as well as with analytical thinking that aims to push its barriers It is hoped that the investigations offered by this volume not only offer hope for a better system for abolitionists and reformists but also new and convincing evidence to persuade the sceptics in the debate over restorative justice

**The Business of War** James McCarty,Matthew Tapie,Justin Bronson Barringer,2020-10-01 The Business of War incisively interrogates the development and contemporary implications of the military industrial complex It exposes the moral dangers of life in neoliberal economies dependent upon war making for

their growth and brings the Christian tradition's abundance of resources into conversation with this phenomenon. In doing so, the authors invite us to rethink the moral possibilities of Christian life in the present day with an eye toward faithful resistance to the business of war and its influence in every aspect of our lives. In combining biblical, historical, theological, and ethical analyses of the business of war, the authors invite us to better understand it as a new moral problem that demands a new faithful response. With contributions from Pamela Brubaker, Stan Goff, Christina McRorie, Kara Slade, Won Chul Shin, David Swartz, Jonathan Tran, Myles Werntz, Matthew Whelan, Tobias Winright, *Just Peace*, Fernando Enns, Annette Mosher, 2013-09-17, Christian theology and ethics have wrestled with the challenge to apply Jesus's central message of nonviolence to the injustices of this world. Is it not right to defend the persecuted by using violence? Is it unjust if the oppressed defend themselves if necessary by the use of violence in order to liberate themselves and to create a more just society? Can we leave the doctrine of the just war behind and shift all our attention toward the way of a just peace? In 2011, the World Council of Churches brought to a close the Decade to Overcome Violence, to which the churches committed themselves at the beginning of the century. Just peace has evolved as the new ecumenical paradigm for contemporary Christian ethics. Just peace signals a realistic vision of holistic peace with justice, which in the concept of shalom is central in the Hebrew Bible as well as in the gospel message of the New Testament. This paradigm needs further elaboration. VU University gathered peacebuilding practitioners and experts from different parts of the world: Africa, Latin America, North America, Asia, and Europe, and from different disciplines: anthropology, psychology, social sciences, law, and theology, voices from across generations and Christian traditions to promote discussion about the different dimensions of building peace with justice.

**Security, With Care** Elizabeth M. Elliott, 2020-05-21T00:00:00Z. Restorative justice as it exists in Canada and the U.S. has been co-opted and relegated to the sidelines of the dominant criminal justice system. In *Security With Care*, Elizabeth M. Elliott argues that restorative justice cannot be actualized solely within the criminal justice system. If it isn't who we are, says Elliott, then the policies will never be sustainable. Restorative justice must be more than a program within the current system; it must be a new paradigm for responding to harm and conflict. Facilitating this shift requires a rethinking of the assumptions around punishment and justice, placing emphasis instead on values and relationships. But if we can achieve this change, we have the potential to build a healthier, more ethical, and more democratic society.

**God in Captivity** Tanya Erzen, 2017-03-07. An eye-opening account of how and why evangelical Christian ministries are flourishing in prisons across the United States. It is by now well known that the United States incarceration rate is the highest in the world. What is not broadly understood is how cash-strapped and overcrowded state and federal prisons are increasingly relying on religious organizations to provide educational and mental health services and to help maintain order. And these religious organizations are overwhelmingly run by nondenominational Protestant Christians who see prisoners as captive audiences. Some twenty thousand of these Evangelical Christian volunteers now run educational programs in over three hundred US prisons, jails, and

detention centers Prison seminary programs are flourishing in states as diverse as Texas and Tennessee California and Illinois and almost half of the federal prisons operate or are developing faith based residential programs Tanya Erzen gained inside access to many of these programs spending time with prisoners wardens and members of faith based ministries in six states at both male and female penitentiaries to better understand both the nature of these ministries and their effects What she discovered raises questions about how these ministries and the people who live in prison grapple with the meaning of punishment and redemption as well as what legal and ethical issues emerge when conservative Christians are the main and sometimes only outside forces in a prison system that no longer offers even the pretense of rehabilitation Yet Erzen also shows how prison ministries make undeniably positive impacts on the lives of many prisoners men and women who have no hope of ever leaving prison can achieve personal growth a sense of community and a degree of liberation within the confines of their cells With both empathy and a critical eye *God in Captivity* grapples with the questions of how faith based programs serve the punitive regime of the prison becoming a method of control behind bars even as prisoners use them as a lifeline for self transformation and dignity
