Developing Conceptual Knowledge Through Oral and Written Language Melanie R. Kuhn, Mariam Jean Dreher, 2020-04-06 The development of students' conceptual understanding of the world is vital to their academic success at all grade levels, preschool through high school and across content areas. This professional resource and course text presents expert perspectives on building conceptual knowledge and vocabulary through reading, writing, and classroom discussion. Topics include the importance of word study and informational texts in early literacy, discussion practices that boost comprehension, the use of multimodal and appropriately complex texts, engaging digital literacies, and discipline-specific writing. Ways to strengthen English learners' conceptual skills are highlighted. Each chapter describes current research, explains how to plan and scaffold instruction, and distills implications for professional learning and offers questions for discussion.

Safety and Security of Cyber-Physical Systems Frank J. Furrer, 2022-07-20 Cyber physical systems (CPSs) consist of software-controlled computing devices communicating with each other and interacting with the physical world through sensors and actuators. Because most of the functionality of a CPS is implemented in software, the software is of crucial importance for the safety and security of the CPS. This book presents principle-based engineering for the development and operation of dependable software. The knowledge in this book addresses organizations that want to strengthen their methodologies to build safe and secure software for mission-critical cyber physical systems. The book presents a successful strategy for the management of vulnerabilities, threats, and failures in mission-critical cyber physical systems. Offers deep practical insight into principle-based software development. 62 principles are introduced and cataloged into five categories: Business, Provides direct guidance on architecting and operating dependable cyber physical systems for software managers and architects.
