Early Childhood And Primary Education: Readings And Reflections Johnston, Jane,Halocha , John,2010-09-01 Early years and primary are often seen as very separate stages of development although children are expected to progress from one key stage to another in a seamless way and the historical and philosophical ideas underpinning practice at the different stages are often the same or similar To be fully effective professionals need to understand and reflect on both children s experiences before and after the stage they are currently working in and the historical and current ideas and practice The current drive is to equip professionals working with young children with higher level understandings and skills and this involves consideration of the key historical and current theories and the development of the conceptual and philosophical frameworks which positively impact on current practice The strengths of this book are that it develops the necessary understandings and skills and closes the gap between professionals working together to support children holistic development It also provides opportunities to engage in critical debate on current issues in professional practice as identified in national and international reports and develop their skills through this engagement It will be of benefit to a range of students on Initial Teacher Education Education Studies and Early Childhood Studies programmes as well as professionals working with children from birth to 11 years of age from early career to leaders and lecturers teaching HE courses

Office for Standards in Education,2008-11 With the establishment on 1 April 2007 of the Office for Standards in Education Children s Services and Skills Ofsted s responsibilities for inspecting children s services changed substantially with Ofsted now regulating and inspecting childcare children s social care and provision for learners of all ages This report covers the first full year of reporting on the organisation s new remit The first section presents an evaluation of the quality and standards in care early education schools colleges adult learning and skills and children s services It is based on evidence from more than 45 000 inspections and regulatory visits in 2007 08 The second section draws on Ofsted s thematic inspections and surveys in the different areas of its remit This section evaluates the effectiveness with which providers seek to address three important matters improving the life chances of the least advantaged members of society through excellence in provision safeguarding children and young people from neglect abuse and other forms of harm and enabling learners to acquire the skills they need to succeed in their working lives The Chief Inspector is encouraged by the recognition that much is going well for so many children young people and adult learners but frustrated that there is still too much that is patently inadequate and too many settings and institutions where the rate of improvement is unacceptably slow Annual Report to the President and to the Congress for Fiscal Year ...
