**E-books in Libraries** Kate Price, Virginia Havergal, 2011 Despite the fact that e books have been in existence for decades

in various guises and added to library collections for several years now there has been a noticeable lack of published manuals on the subject This is doubtless owing to the rapidly evolving nature of the market There is now a plethora of different types of digital object that may be termed e books and a bewildering number of business and access models to match Moreover the pace of change shows no sign of abating but there is an increasing amount of popular interest in e books and what is needed is practical information to assist library and information professionals managing collections of e books and doing their best to inform their users right now The book is divided into five parts The production and distribution of e books Planning and developing an e book collection Delivering e books to library readers Engaging readers with e books The future of e books

Virginia Havergal BA Hons MSc MEd FIFL is a Learning Centres and e Resources Manager for Petroc a further education college in Devon Prior to this role she was an e Learning Advisor with JISC with a particular focus on Learning Resources

Kate Price BA Hons MA MCLIP is Head of E Strategy and Resources at the University of Surrey     [Alexander's Nursing Practice E-Book](#) Chris Brooker,Maggie Nicol,Margaret F. Alexander,2011-05-10 The most comprehensive UK Adult Nursing core text now in its fourth edition for the next generation of nurses This best selling textbook has been fully revised by a team of experienced nurses for nurses focusing on the issues that are important to them It provides a comprehensive source of the knowledge and skills required for competent evidence based nursing practice High quality nursing care is patient centred knowledgeable and based on the best available evidence This book will help you to achieve that Key nursing issues summarise each chapter and enable you to check your understanding Interactive Reflection and Evidence based practice boxes help make links between theory and practice A Reflection and Learning feature in each chapter to help you consider your learning and professional development and how you can use it to enhance patient client care An exciting companion website including Self test quiz questions with full explanations with the answers Critical thinking questions with outline answers Full colour photographs diagrams tables and care plans Hyper linked references All the images from the book

[Applying the Roper-Logan-Tierney Model in Practice E-Book](#) Karen Holland,Jane Jenkins,Jackie Solomon,Sue Whittam,2008-04-08 The eBook version of this title gives you access to the complete book content electronically Evolve eBooks allows you to quickly search the entire book make notes add highlights and study more efficiently Buying other Evolve eBooks titles makes your learning experience even better all of the eBooks will work together on your electronic bookshelf so that you can search across your entire library of Nursing eBooks Please note that this version is the eBook only and does not include the printed textbook Alternatively you can buy the Text and Evolve eBooks Package which gives you the printed book plus the eBook Please scroll down to our Related Titles section to find this title This is a new edition of the highly successful textbook which explores the use of the Roper Logan and Tierney Model of Nursing in practice It underpins nursing care for patients with a variety of health care problems The main focus is on nursing adult patients in acute and community based settings Applying the RLT Model in Practice has been written to enable students and their teachers in both

Higher Education and clinical practice to explore the different dimensions of the model through a variety of case studies and exercises The case studies can be viewed as triggers for student problem solving skills in using the Model Many of the exercises are aimed at enabling readers to find evidence to support nursing activities The authors have incorporated an international perspective throughout the text Based on the most popular model used in general nursing care throughout the world Explicitly demonstrates how the RLT model can be used to assess plan deliver and evaluate individualised nursing care Applies the RLT model in the context of today's health services and links it to clinical governance and the multi disciplinary context of care Uses a problem solving approach with extensive use of exercises and case studies Attractive two colour design using boxes tables and summaries Fully updated throughout in line with changes in practice developments in the evidence base changes in the NHS e.g. modern matrons Modernisation Agency etc More material on how to apply the model in an inter disciplinary context Updated infection control section More on discharge planning More material relating to primary care
