The Rwala Bedouin Today Changing Cultures:

The Rwala Bedouin Today William Lancaster, 1981-09-03 Considered by many scholars to be one of the best modern ethnographies on Middle Eastern ethnic groups the highly regarded unromanticized account of Bedouin life offers a clear explanation of the kinship system in nomadic societies *The Rwala Bedouin Today* William Lancaster, 1997 **The Rwala Bedouin Today** Bill Lancaster, 1981 **The Arab World** Halim Barakat, 1993-10-14 This book will become a classic Barbara Aswad President Middle Eastern Studies Association *Ambiguous Ethnicity* Susan Benson, 1982-01-14 In a society where race is a significant component of social identity and exerts an important influence on social relationships the problems faced by couples who enter into mixed marriages are especially difficult The book is a study of the personal histories and everyday lives of a small number of interracial families living in and around Brixton south London in the early 1970s Dr Benson sets the circumstances that confront these families within the context of wider British attitudes about race colour and miscegenation as they developed over time She argues that couples are obliged to make a continual series of choices between black and white in the course of their everyday lives Through a discussion of these choices and of the factors which lead individuals to enter into a marriage which could be regarded with some disapproval the book explores how people in London thought and felt about race colour and social identity It will be of interest to all teachers and students studying race relations as well as to social and community workers school teachers and administrators concerned with race relations and the inner city **Encyclopaedic Ethnography of Middle-East and Central Asia** R. Khanam, 2005

concerning the archaeology of societies which lived and live in the Holy Land **Muslim Peoples: Acehnese** Richard V. Weekes,1984 **The Oxford Encyclopedia of Women in World History** Bonnie G. Smith,2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated womens daily lives in virtually every region and have researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The Encyclopedia contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune womens and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general readers alike **The Theory of Cultural and Social Selection** W. G. Runciman,2009-11-05 In The Theory of Cultural and Social Selection W G Runciman presents an original and wide ranging account of the fundamental process by which human cultures and societies come to be of the different kinds that they are Drawing on and extending recent advances in neo Darwinian evolutionary theory Runciman argues that collective human behaviour should be analyzed as the acting out of information transmitted at the three separate but interacting levels of heritable variation and competitive selection the biological the cultural and the social The implications which this carries for a reformulation of the traditional agenda of comparative and historical sociology are explored with the help of selected examples and located within the context of current debates about sociological theory and practice The Theory of Cultural and Social Selection is a succinct and highly imaginative contribution to one of the great intellectual debates of our times from one of the world s leading social theorists *Live and Die Like a Man* Farha Ghannam,2013-09-04 An anthropologist deconstructs the notion of masculinity using twenty years of field research in the Cairo neighborhood of al Zawiya Watching the revolution of January 2011 the world saw Egyptians men and women come together to fight for freedom and social justice These events gave renewed urgency to the fraught topic of gender in the Middle East The role of women in public life the meaning of manhood and the future of gender inequalities are hotly debated by religious figures government officials activists scholars and ordinary citizens throughout Egypt Live and Die Like a Man

presents a unique twist on traditional understandings of gender and gender roles shifting the attention to men and exploring how they are collectively produced as gendered subjects It traces how masculinity is continuously maintained and reaffirmed by both men and women under changing socio economic and political conditions Over a period of nearly twenty years Farha Ghannam lived and conducted research in al Zawiya a low income neighborhood not far from Tahrir Square in northern Cairo Detailing her daily encounters and ongoing interviews she develops life stories that reveal the everyday practices and struggles of the neighborhood over the years We meet Hiba and her husband as they celebrate the birth of their first son and begin to teach him how to become a man Samer a forty year old man trying to find a suitable wife Abu Hosni who struggled with different illnesses and other local men and women who share their reactions to the uprising and the changing situation in Egypt Against this backdrop of individual experiences Ghannam develops the concept of masculine trajectories to account for the various paths men can take to embody social norms In showing how men work to realize a male ideal she counters the prevalent dehumanizing stereotypes of Middle Eastern men all too frequently reproduced in media reports and opens new spaces for rethinking patriarchal structures and their constraining effects on both men and women Praise for Live and Die Like a Man In a book that lives up to its name anthropologist Ghannam explores what it means to be a man Her thick descriptions amassed over 20 years of research will make readers laugh cry and gasp at the lives of these individuals By examining the construct of manhood Ghannam is charting new territory in Middle Eastern studies Summing Up Highly recommended CHOICE With its focus on masculinity Farha Ghannam s thoughtful ethnography Live and Die Like a Man makes important interventions into the anthropological scholarship on gender childhood and family in the Middle East Her ethnographic sensibility perfectly grasps the dynamic and complex intertwining of male and female ways of being and self presentation and how that interrelationship forms men s lives International Journal of Middle East Studies Tribes, Government, and History in Yemen Paul Dresch, 1989 Dresch here combines ethnography with history to describe the system of sedentary tribes in South Arabia a strategically sensitive part of the world over the past thousand years He examines the values and traditions the tribal people bring to the contemporary world of nation states and discusses the relation of the major tribes to pre modern Islamic learning the Zaydi Imamate ideas of contemporary statehood and the area as a whole
