## **The Second Wave The Meta Superhero Novel Series Book :**

**The Second Wave** Tom Reynolds, 2014-09-30 Summer's over and Connor Connolly is headed back to school to start junior year. But with metabands falling from the sky, the world has changed overnight and now there are thousands of new metahumans. Just like regular humans, not all metahumans are using their new powers for good. Now Connor's not only dealing with the pressures of being a super human and training with his mentor Midnight, he also has to balance relationships with the people he cares for. Most people who find themselves on different sides of the fence when it comes to their feelings about the new metahumans and the impact they're having on everyone else's lives. As the world struggles to adjust to the events of the past few months, Connor's alter ego Omni works with The Agency to apprehend law-breaking metahumans and detain them at the Silver Island Meta Detention Facility. When he's recruited for a job assisting the government agency with disarming one of the most powerful and secretive metas in Bay View City, he never expects the devastation of that mission or the affect it will have on both humans and metas. Is Connor capable of becoming the hero he wants to be? Unedited summary from back cover

**Midnight Strikes** Tom Reynolds, 2018-04-24 The prequel to Tom Reynolds' hit Meta superhero novel series is finally here. The world is still reeling from the devastation of the final battle between the world's strongest metahumans. Empire City has been left in shambles as it struggles to rebuild. Overnight, the world's metabands—mysterious bracelets that offer their owner's superhuman powers and abilities—have all ceased working. Guilt-ridden over his possible hand in all of this, the masked vigilante Midnight has hung up his cowl. Instead of fighting crime, he now spends his sleepless nights searching for clues to recover the device that might be responsible for all of it before it can fall into the wrong hands. Along the way, he meets Amanda Khan, a teenage girl with a metahuman history in search of her missing friend. Both find the clues to what they're both searching for, lead them to The Receptive, a secretive cult which offers a path to meta-humanity to its most loyal followers and may just hold the answers to the missing device. Don't forget to check out the other books in the Meta series, including *Meta: The Second Wave* and *Rise of The Circle*.

**Theorizing the Superhero** Aditya Misra, 2024-07-24 This book uses contemporary continental philosophy to develop an alternative theory of the superhero to the one currently offered by the comic book industry and comic book studies. Studying superheroes from South Asian pop culture, this book questions the definition of the superhero and the allegedly sacrosanct nature of its origin and identity in comic books. This book looks at the superhero as a performative figure and explores how the superheroinic imagination opens up diverse modes of creative thinking. Superheroes studied in this book include Narayan Debnath's Bantul, the Great Comics Premendra Mitra's Ghanashyam Das or Ghanada, Tall Tale Satyajit Ray's Professor Trilokeswar Shonku, science fiction/fantasy and one of the nine gems of Emperor Akbar's court, Raja Birbar or Birbal, mediaeval Indian history. By virtue of perpetual reconfiguration of its elements, the book argues, the concept of the superhero makes itself always new and it is always already open onto elsewhere.

**The British Comic Book Invasion** Jochen Ecker, 2018-12-28 What makes a successful

comics creator How can storytelling stay exciting and innovative How can genres be kept vital Writers and artists in the highly competitive U S comics mainstream have always had to explore these questions but they were especially pressing in the 1980s As comics readers grew older they started calling for more sophisticated stories They were also no longer just following the adventures of popular characters writers and artists with distinctive styles were in demand DC Comics and Marvel went looking for such mavericks and found them in the United Kingdom Creators like Alan Moore Watchmen Saga of the Swamp Thing Grant Morrison The Invisibles Flex Mentallo and Garth Ennis Preacher migrated from the anarchical British comics industry to the U S mainstream and shook up the status quo yet came to rely on the genius of the American system

**GameAxis Unwired** ,2007-07 GameAxis Unwired is a magazine dedicated to bring you the latest news previews reviews and events around the world and close to you Every month rain or shine our team of dedicated editors and hardcore gamers put themselves in the line of fire to bring you news previews and other things you will want to know

**Hispanic Writers** Bryan Ryan,1991 Contains more than four hundred entries on twentieth century Hispanic writers all originally written or updated for this volume

*Articulating the Action Figure* Jonathan Alexandratos,2017-03-10 Action figures are more than toys or collectibles they are statements on race gender class body positivity and more This collection of nine new essays and one interview argues that action figures should be analyzed in the same light as books movies television shows and other media Through an examination of the plastic bodies that fill our shelves and toy boxes Action Figure Studies can inform the next generation of toys

**Handbook of Comics and Graphic Narratives** Sebastian Domsch,Dan Hassler-Forest,Dirk Vanderbeke,2021-07-05 Whether one describes them as sequential art graphic narratives or graphic novels comics have become a vital part of contemporary culture Their range of expression contains a tremendous variety of forms genres and modes from high to low from serial entertainment for children to complex works of art This has led to a growing interest in comics as a field of scholarly analysis as comics studies has established itself as a major branch of criticism This handbook combines a systematic survey of theories and concepts developed in the field alongside an overview of the most important contexts and themes and a wealth of close readings of seminal works and authors It will prove to be an indispensable handbook for a large readership ranging from researchers and instructors to students and anyone else with a general interest in this fascinating medium

*Rise of the Circle* Tom Reynolds,2015-11-24 As metahumans emerge throughout the world some greet them as saviors while others see them as a threat to humanity itself A group of elite soldiers come into possession of the most powerful metabands seen yet with the ability to destroy what was thought to be indestructible the metabands themselves With the destruction of the Silver Island Metahuman Detention Facility Bay View City goes into total lockdown Alpha Team impose their protection but at a price the complete and total ban of metahumans within the city Refusal to follow is punishable by execution Forced to leave the city he calls home Connor is given a second chance at an elite prep school across the bay one with a very big secret Rise of The Circle is the third book in the breakout
