This book gives you the answers you've been looking for in friendly, clear language. Dive into the core concepts of Clojure: immutable collections, concurrency, pure functions, and state management. You'll finally get the complete picture you've been looking for rather than dozens of puzzle pieces you must assemble yourself. First, explore the core concepts of Clojure development: learn how to model your domain with immutable data, choose the ideal collection, and write simple, pure functions for efficient transformation. Next, you'll apply those core concepts to build applications, discover how Clojure manages state and identity, spread your work for concurrent programming, and create and assemble components. Finally, see how to manage external integration and deployment concerns by developing a testing strategy, connecting with other data sources, and getting your libraries and applications out the door. Go beyond the toy box and into Clojure's way of thinking. By the end of this book, you'll have the tools and information to put Clojure's strengths to work. What You Need To follow along with the examples in the book, you will need Clojure 1.6, Leiningen 2, and Java 6 or higher.

Report of Major-General B. McClellan George Brinton McClellan, 1864 **The Men Inside** George Phillipos, 2005. A brilliant collection of short stories woven out of the author's association with the seas as a marine engineer. Exquisitely narrated, the author is able to transport the reader into the deep seas with his characters. Through the tapestry of his narration, Phillipos is able to delineate the stories of ordinary human beings and their ordinary human emotions. On one hand, while on the other, he dabbles with the realm of the unreal, paranormal. Anecdotal and churned out of his personal memory, this collection is simply unputdownable.

The Diary of John Holt John Holt, International Maritime Economic History Association, 1993. John Holt (1841-1915) was a successful British merchant who made several voyages to West Africa during his lifetime to establish business and trade in the era of British Imperialism. His diaries are presented in two accounts: the first from 1862-1872 documents his life as a merchant on the West African island of Fernando Po, initially working for James Lynslager and eventually purchasing the trade company and expanding it significantly. Holt's own vessel, Maria, and his affiliation with the African Steam Ship Company made his maritime trade activities particularly successful. The second account records his voyage in the Maria from Liverpool to Fernando Po in 1869-1872 and documents his trade relationships across West Africa. The volume is rounded out by diary entries from the ten-day voyage of the Peep o' Day along the Krou coast and concludes with John Holt's family tree. This volume presents a comprehensive account of Holt's life as a means of preserving history and adding to the field of study of mercantile livelihoods and shipping trade industries under British imperialism. It also seeks to celebrate the individual accomplishments made in John Holt's career.
