Pierre, 2015-06-18 Anaize the Widows Girl is about a widow Van Loon, 1878 named Violet who loses her only child in the forest The absence of her daughter changes her world but she never stops hoping that one day her daughter will come home No matter how the wind shakes the trees branches blows down its leaves or scatters them far from the trunk the heart and the roots of the tree will always remain connected and will not die until THE SOUL IN MY EYES Robin Klitzke Pauley, 2015-09-24 This book THE SOUL IN MY EYES is my their time comes first published book of Prose Poetry In this book you will find poems of love loss fear disillusion dedications to those I love bits and pieces of my life like a puzzle in which I m trying to find wholeness in this world through my writing Rewriting Germany from the Margins Petra Fachinger, 2001 The margins in Petra Fachinger's work are occupied largely by second generation migrant writers from Spain Italy and Turkey German Jewish writers of diverse ethnic origins and writers born in the GDR She demonstrates that during the 1980s and 1990s writers from various cultural backgrounds engaged in oppositional discourse to construct their own version of Germany and write back to the German canon While most studies of texts by minority writers in Germany favour content over form Fachinger focuses on identifying counter discursive strategies and applies postcolonial theory concerned with textual resistance to the German situation In doing so this study effectively relates marginal writing in Germany to similar forms of writing in other national and cultural contexts The oppositional impulse whether manifested in counter canonical discourse postcolonial picaresque hybridity rewriting of genre or grotesque realism is prompted by the exclusionary politics of the dominant culture. The discursive strategies used by the authors discussed to rewrite Germany expose the assumptions that underlie German public discourse and destabilise notions of Germanness Jewishness and Turkishness Fachinger's reading of texts by marginal writers in Germany all of whom endeavour to resist marginalisation while simultaneously experiencing or even celebrating the margin as a site of empowerment was

motivated by the absence of comparative studies of such writing Rewriting Germany from the Margins demonstrates the necessity and usefulness of comparative approaches to minority discourses across national and cultural borders Alpha's Rejected Luna Mia Blackwood, 2025-06-18 What happens when the omega everyone underestimated becomes the Luna no one saw coming Dr Sophia Hayes thought she d left her werewolf past behind forever Three years ago Alpha Marcus Blackwood shattered their mate bond in a public rejection that nearly killed her Now she s built a successful veterinary practice in the human world until her adoptive mother's cancer diagnosis forces her back to the one place she swore she d never return Crescent Falls Perfect for readers who love Strong independent heroines who fight for what they deserve Protective alpha heroes who must earn their second chance Pack politics ancient traditions and supernatural intrigue Steamy romance with genuine emotional depth Found family and chosen bonds that heal old wounds Inside this captivating paranormal romance you ll discover A rejected mate who returns stronger than ever Deadly pack rivalries and ancient bloodline secrets A Luna challenge that will determine everyone s fate Heart stopping action and spine tingling romance A satisfying enemies to lovers journey with a guaranteed HEA When Shadow Ridge pack threatens everything Sophia holds dear she must embrace the power she never knew she possessed But can she trust the man who once destroyed her heart to stand beside her as an equal Or will the secrets of her true heritage tear them apart forever If you crave paranormal romance with fierce heroines swoon worthy alphas and plots that keep you turning pages until dawn one click now and lose yourself in this addictive werewolf saga Dusk to Dawn, 2nd Edition Glenn Randall, 2024-01-02 Embrace the dark and conquer landscape photography at night In the past landscape photography largely ended when the last light of dusk faded from the sky Today it's only beginning The latest digital cameras have made it much easier to create images of the landscape at night that film and early digital photographers could only dream of Equipped with off the shelf cameras more and more photographers are venturing into the night far beyond the comforting glow of city lights and returning with spectacular images of places both familiar and unknown that are unlike anything seen before Dusk to Dawn A Guide to Landscape Photography at Night 2nd Edition is your guide to this new photographic world In it photographer Glenn Randall author of the bestselling The Art Science and Craft of Great Landscape Photography teaches you how to plan shoot and process professional quality images of the Milky Way the aurora lunar eclipses meteor showers comets star trails and landscapes lit solely by moonlight In this fully revised and updated second edition Randall goes deeper into today s technology that allows for great landscape photography at night from mirrorless cameras that now truly dominate the market and require a different approach to focusing to the apps photographers need to know to best prepare for a successful shoot Photo Pills Photo Ephemeris Web This edition has also been updated with dozens of new photographs from the author as well as new sections on photographing comets the zodiacal light and noctilucent coulds Throughout the book Randall emphasizes ways to integrate beautiful depictions of the night sky with equally compelling renditions of the land below it to create complete
