The Soviet High Command John Erickson, 2003-01-01

*The Soviet High Command, 1967-1989* Dale Roy Herspring, 2014-07-14 The recent transformations in the USSR are nowhere more evident than in the Soviet military Top level military officers have been relieved of their positions Gorbachev has warned of lean times for the military the symbolic role of the armed forces has been downgraded and the concept of military sufficiency points to major modifications in Soviet force structure Contrary to some who see Gorbachev as a Sir Galahad out to slay the evil military high command Dale Herspring concludes that the relationship between the highest Soviet political and military leaders is at the moment more symbiotic than conflictual In this first in depth study of the evolution of civil military relations in the Soviet Union from 1967 to the present he shows how the views of senior military officers have varied over time currently even if the members of the high command do not like all Gorbachev's changes they understand the need for them and are prepared to live with them As Herspring looks at the personalities and politics of eight top military figures he reveals that the most important of them Ogarkov was the first senior Soviet military officer to understand the value of working with the political leadership Ogarkov believed that the arms control and détente processes if carefully managed could enhance the national security of the USSR In Gorbachev the Soviet military has found the type of individual that Ogarkov was seeking Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Soviet Army's High Commands in War and Peace,

1941-1992 Richard W. Harrison, 2022-07-28 The first full treatment of the unique phenomenon of High Commands in the Soviet Army during World War II and the Cold War The war on the Eastern Front during 1941-45 was an immense struggle running from the Barents Sea to the Caucasus Mountains The vast distances involved forced the Soviet political military leadership to resort to new organizational expedients in order to control operations along the extended front These were the high commands of the directions which were responsible for two or more fronts army groups and along maritime axes one or more fleets In all five high commands were created along the northwestern western southwestern and North Caucasus strategic directions during 1941-42 However the highly unfavorable strategic situation during the first year of the war as well as interference in day to day operations by Stalin severely limited the high commands effectiveness As a consequence the high commands were abolished in mid 1942 and replaced by the more flexible system of supreme command representatives at the front A High Command of Soviet Forces in the Far East was established in 1945 and oversaw the Red Army's highly effective campaign against Japanese forces in Manchuria The Far Eastern High Command was briefly resurrected in 1947 as a response to the tense situation along the Korean peninsula and the ongoing civil war in China but was abolished in 1953 soon after Stalin's death Growing tensions with China brought about the recreation of the Far Eastern High Command in 1979 followed a few years later by the appearance of new high commands in Europe and South Asia However these new high commands did not long survive the collapse of the Soviet Union in 1991 and were abolished a year later The book relies almost exclusively on Soviet and post communist archival and other sources and is the first unclassified treatment of this subject in any country East or West *The Soviet High Command* John Erickson, Taylor & Francis Group, 2020-06-30 This book aims to furnish a history of the origins and development of Soviet military leadership together with a survey of its relations with the Communist Party and the governmental apparatus within the chronological limits of the first attempts to organise the Red Army and a military command **The Military Strategy of the Soviet Union** David M. Glantz, 1992 This study of Soviet military strategy is based upon the relationship between the army and politicians as well as Soviet writings on the subject of military strategy Thanks to the policy of glasnost it incorporates Soviet materials hitherto unavailable in the West It should not be considered simply as a retrospective account of what was it forms at least part of the context for what will be in the future The Soviet Military High Command 1957-1967 William Joseph Spahr, 1972 **The Military History of the Soviet Union** R. Higham, 2010-11-14 This volume provides an introduction to the history of the Soviet armed forces from 1917 to 1991 The authors highlight the many facets of the Cold War including the rise of the Soviet Navy after the Great Patriotic War and the collapse of the Soviet Union which marks its twentieth anniversary in 2011 **The Soviet Military High Command 1957-1967, Political Socialization, Professional and Modernization** William Joseph Spahr, 1972 **The Soviet Military** E.S. Williams, C.N. Donnelly, J.E. Moore, 1987-06-18 **How Russia Makes War** Raymond L. Garthoff, 2021-01-26 This book first published in 1954 is a key analysis of the guiding policies basic

assumptions fundamental principles and methods of the Red Army in many respects the most powerful force in the Cold War This analysis examines the strategy and tactics weapons systems training discipline and political doctrine of the Red Army as well as focusing on the political control of the USSR and its satellite states *Hammer and Rifle* David R. Stone,2000

Analysis of the central role of militarization in the development of state society and economy in the U S S R between the end of the New Economic Plan in 1926 and the conclusion of the first Five Year Plan in 1933 **Commissars, Commanders, and Civilian Authority** Timothy J. Colton,1979 For six decades the Soviet system has been immune to military rebellion and takeover which often characterizes modernizing countries How can we explain the stability of Soviet military politics asks Timothy Colton in his compelling interpretation of civil military relations in the Soviet Union Hitherto most western scholars have posited a basic dichotomy of interests between the Soviet army and the Communist party They view the two institutions as conflictprone with civilian supremacy depending primarily upon the party's control of officers through its organs within the military establishment Colton challenges this thesis and argues that the military party organs have come to possess few of the attributes of an effective controlling device and that the commissars and their heirs have operated as allies rather than adversaries of the military commanders In explaining the extraordinary stability in army party relations in terms of overlapping interests rather than controlling mechanisms Colton offers a major case study and a new model to students of comparative military politics **The People, the Army, the Commander** Mitrofan Pavlovich Skirdo,1978 *Stalin's Wars* Geoffrey Roberts,2006-01-01 This breakthrough book provides a detailed reconstruction of Stalin's leadership from the outbreak of the Second World War in 1939 to his death in 1953 Making use of a wealth of new material from Russian archives Geoffrey Roberts challenges a long list of standard perceptions of Stalin his qualities as a leader his relationships with his own generals and with other great world leaders his foreign policy and his role in instigating the Cold War While frankly exploring the full extent of Stalin's brutalities and their impact on the Soviet people Roberts also uncovers evidence leading to the stunning conclusion that Stalin was both the greatest military leader of the twentieth century and a remarkable politician who sought to avoid the Cold War and establish a long term detente with the capitalist world By means of an integrated military political and diplomatic narrative the author draws a sustained and compelling personal portrait of the Soviet leader The resulting picture is fascinating and contradictory and it will inevitably change the way we understand Stalin and his place in history Roberts depicts a despot who helped save the world for democracy a personal charmer who disciplined mercilessly a utopian ideologue who could be a practical realist and a warlord who undertook the role of architect of post war peace **The Soviet High Command and General Staff** Raymond L. Garthoff,RAND CORP SANTA MONICA CALIF.,Rand Corporation,1955 A discussion of the organization of Soviet Military forces is presented The political and strategic problems facing the Soviet Union are also considered
