

The background of the book cover is a blue-tinted aerial photograph of a large formation of Soviet T-34 tanks. The tanks are arranged in several rows, moving across a field. The image is slightly faded and serves as a backdrop for the title text.

THE SOVIET HIGH COMMAND

A Military-Political History, 1918–1941

JOHN ERICKSON

THIRD EDITION

The Soviet High Command A Military Political History 1918 1941

Jeremy Black

The Soviet High Command A Military Political History 1918 1941:

The Soviet High Command John Erickson, 1984 **The Soviet High Command: a Military-Political History, 1918-1941** John Erickson, 2006-04-06 An objective and documentary history of the earliest origins and formative years of the Workers Peasants Red Army from the Civil War to the initial disasters of the war with Germany the Great Patriotic War culminating in the battle for Moscow in November December 1941 **Le voyage blanc, mise en scène de Marie-Christine Colomb**, 1984 The Soviet High Command: a Military-political History, 1918-1941 John Erickson, 2013-07-04 An objective and documentary history of the earliest origins and formative years of the Workers Peasants Red Army from the Civil War to the initial disasters of the war with Germany the Great Patriotic War culminating in the battle for Moscow in November December 1941 **Warfare in the Western World, 1882-1975** Jeremy Black, 2014-12-18 In this companion volume to Western Warfare 1775 1882 Jeremy Black takes his analysis of modern warfare into the twentieth century As before a distinctive feature of the author s approach is the coverage of both land and naval warfare as well as conflict within the West and between Western and non Western powers Beginning with the British conquest of Egypt in 1882 this book goes on to examine the Spanish American War of 1898 the Boer War and the Balkan conflicts leading to world war in 1914 A revisionist account of the First World War is followed by a discussion of Western expansionism in the period to 1936 Chapters on the interwar years and the Second World War lead on to a discussion of the retreat from empire and the advent of Cold War The narrative closes with the end of the Vietnam War in 1975 and a discussion of the limitations of Western military technique doctrine and technology Throughout the themes of military change and modernization are brought into sharp focus and the revolutionary characteristics of the machination of war in this period are questioned Jeremy Black offers a new and challenging interpretation of modern warfare that will be required reading not only for students of military history but for all those interested in the impact of war in the making of the modern world

Commanding Military Power Ryan Grauer, 2016-07-28 This book offers a new explanation of military power highlighting the role of uncertainty in the creation of combat capabilities Dictatorship of the Air Scott W. Palmer, 2006-07-31 Focusing on one of the last untold chapters in the history of human flight this book explains the true story behind twentieth century Russia s quest for aviation prominence **Shaping US Military Law** Joshua E. Kastenberg, 2016-04-01 Since the United States entry into World War II the federal judiciary has taken a prominent role in the shaping of the nation s military laws Yet a majority of the academic legal community studying the relationship between the Court and the military establishment argues otherwise providing the basis for a further argument that the legal construct of the military establishment is constitutionally questionable Centering on the Cold War era from 1968 onward this book weaves judicial biography and a historic methodology based on primary source materials into its analysis and reviews several military law judicial decisions ignored by other studies This book is not designed only for legal scholars Its intended audience consists of Cold War military

and political historians as well as political scientists and military and national security policy makers Although the book's conclusions are likely to be favored by the military establishment the purpose of this book is to accurately analyze the intersection of the later twentieth century's American military political social and cultural history and the operation of the nation's armed forces from a judicial vantage

Raza Schools Jesús Jesse Esparza, 2023-09-19 In 1929 a Latino community in the borderlands city of Del Rio Texas established the first and perhaps only autonomous Mexican American school district in Texas history How it did so against a background of institutional racism poverty and segregation is the story Jesús Jesse Esparza tells in *Raza Schools* a history of the rise and fall of the San Felipe Independent School District from the end of World War I through the post civil rights era The residents of San Felipe whose roots Esparza traces back to the nineteenth century faced a Jim Crow society in which deep seated discrimination extended to education making biased curriculum inferior facilities and prejudiced teachers the norm *Raza Schools* highlights how the people of San Felipe harnessed the mechanisms and structures of this discriminatory system to create their own educational institutions using the courts whenever necessary to protect their autonomy For forty two years the Latino community funded maintained and managed its own school system until 1971 when in an attempt to address school segregation the federal government forced the San Felipe Independent School District to consolidate with a larger neighboring mostly white school district Esparza describes the ensuing clashes over curriculum school governance teachers positions and funding that challenged Latino autonomy While focusing on the relationships between Latinos and whites who shared a segregated city his work also explores the experience of African Americans who lived in Del Rio and attended schools in both districts as a segregated population Telling the complex story of how territorial pride race and racism politics economic pressures local control and the federal government collided in Del Rio *Raza Schools* recovers a lost chapter in the history of educational civil rights and in doing so offers a more nuanced understanding of race relations educational politics and school activism in the US Mexico borderlands

The Civil-Military Fabric of Weimar Foreign Policy Gaines Post, Jr., 2015-03-08 In the historiographic debate over Germany's responsibility for the outbreak of the two world wars little attention has been paid to German politico military activity in the Weimar Republic Although Weimar diplomats and military leaders emphasized the interconnection and developed ideas and procedures for joint planning historians have usually treated the foreign and military affairs of the republic separately Gaines Post Jr however examines the relationship between foreign policy and military planning and charts its directions and changes to develop a model of German civil military relations which sheds light on the general problem of modern civil military relations He shows that diplomats and military leaders shared assumptions about the role of force in foreign policy and the subordination of the military arm to the political leadership and that they collaborated in assessing Germany's strategic situation in rearmament and in operational exercises In the 1920's interdepartmental cooperation between the foreign office and the Defense Ministry became the foundation of a stable system of civil military

relations The system broke down during the crisis period of 1930 1933 because of mounting institutional pressures The author demonstrates how in both periods civilian and military leaders viewed military force not simply as an instrument of national self defense but as an acceptable means of attaining national goals above all the revision of the German Polish borders Originally published in 1973 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Russian Aviation and Air Power in the Twentieth Century John Greenwood, Von Hardesty, Robin Higham, 2014-06-11 In the light of new archival material the editors take a fresh look at Russian aviation in the twentieth century Presenting a comprehensive view of Russian aviation from its genesis in the late czarist period to the present era the approach is essentially chronological with a major emphasis on the evolution of military aviation The contributions are diverse with appropriate attention to civilian and institutional themes **Review of Current Military Literature** ,1986 **Civil-Military Relations in Russia and Eastern Europe** David Betz, 2004-07-31

This book examines how civil military relations have been transformed in Russia Poland Hungary and Ukraine since the collapse of the Soviet Union and the Warsaw Pact in 1991 It shows how these countries have worked to reform their obsolete armed forces and bring them into line with the new economic and strategic realities of the post Cold War world with new bureaucratic structures in which civilians play the key policy making roles and with strengthened democratic political institutions which have the right to oversee the armed forces To Raise and Discipline an Army Joshua

Kastenberg, 2017-04-15 Major General Enoch Crowder served as the Judge Advocate General of the United States Army from 1911 to 1923 In 1915 Crowder convinced Congress to increase the size of the Judge Advocate General s Office the legal arm of the United States Army from thirteen uniformed attorneys to more than four hundred Crowder s recruitment of some of the nation s leading legal scholars as well as former congressmen and state supreme court judges helped legitimize President Woodrow Wilson s wartime military and legal policies As the United States entered World War I in 1917 the army numbered about 120 000 soldiers The Judge Advocate General s Office was instrumental in extending the military s reach into the everyday lives of citizens to enable the construction of an army of more than four million soldiers by the end of the war Under Crowder s leadership the office was responsible for the creation and administration of the Selective Service Act under which thousands of men were drafted into military service as well as enforcement of the Espionage Act and wartime prohibition In this first published history of the Judge Advocate General s Office between the years of 1914 and 1922 Joshua Kastenberg examines not only courts martial but also the development of the laws of war and the changing nature of civil military relations The Judge Advocate General s Office influenced the legislative and judicial branches of the government to permit

unparalleled assertions of power such as control over local policing functions and the economy Judge advocates also altered the nature of laws to recognize a person's diminished mental health as a defense in criminal trials influenced the assertion of US law overseas and affected the evolving nature of the law of war This groundbreaking study will appeal to scholars students and general readers of US history as well as military legal and political historians **Air University Quarterly Review** ,1969

The Russian Way of War Richard W. Harrison,2001 In this first comprehensive treatment of the subject Richard Harrison shows how this theory emerged and developed to become despite radically different political settings and levels of technology essential to the Red Army's victory over Germany in World War II Twentieth-Century War and Conflict Gordon Martel,2014-07-28 TWENTIETH CENTURY WAR AND CONFLICT With rich entries that highlight the political context strategic significance and tactical detail of each conflict this encyclopedia is an essential reference for students of military history and strategic studies Theo Farrell King's College London Drawn from the award winning five volume Encyclopedia of War Choice Outstanding Academic Title 2013 the single volume Twentieth Century War and Conflict provides an essential guide to the conflicts and concepts that shaped warfare in the twentieth century and up to the present day This concise reference contains a range of entries from 1 000 to 6 000 words long each written by a leading international scholar This concise encyclopedia provides full coverage of global conflicts and themes in twentieth century war World Wars I and II are covered by 10 separate entries Lesser conflicts are also incorporated in this volume including the Russo Japanese War the Greco Turkish War the Falklands War the Soviet War in Afghanistan the Gulf Wars and more Issues such as chemical warfare ethnic cleansing psychological warfare and women and war also receive substantial treatment making this an invaluable resource for students and general readers alike **Storm of Steel** Mary R. Habeck,2014-06-30 In this fascinating account of the battle tanks that saw combat in the European Theater of World War II Mary R Habeck traces the strategies developed in Germany and the Soviet Union between the wars for the use of armored vehicles in battle **Air Force Magazine** ,2002

The Soviet-East German Military Alliance Douglas A. Macgregor,1989 The German Democratic Republic's emergence as the key political player within the Warsaw Pact has intensified debates concerning the critical East German military role in Soviet strategy for the future of Eastern Europe Douglas Macgregor traces the origins of current collaboration to earlier forms of Russo German military alliance
