

The Starfish Story

Once upon a time, a wise old man come-upon a dancing figure along the shoreline.

As he got closer, he noticed that the figure was that of a young man, and that what he was doing was not dancing at all. The young man was reaching down to the shore, picking up small objects, and throwing them into the ocean.

He came closer still and called out "Good morning! May I ask what it is that you are doing?"

The young man paused, looked up, and replied "Throwing starfish into the ocean."

"I must ask, then, why are you throwing starfish into the ocean?" asked the somewhat startled wise man. To this, the young man replied, "The sun is up and the tide is going out. If I don't throw them in, they'll die."

Upon hearing this, the wise man commented, "But, young man, do you not realize that there are miles and miles of beach and there are starfish all along every mile? You can't possibly make a difference!"

At this, the young man bent down, picked up yet another starfish, and threw it into the ocean. As it met the water, he said, "It made a difference for that one."

The Story of Ireland Emily Lawless,2020-09-28 It seems to be certain says the Abb McGeoghehan that Ireland continued uninhabited from the Creation to the Deluge With this assurance to help us on our onward way I may venture to supplement it by saying that little is known about the first or even about the second third and fourth succession of settlers in Ireland At what precise period what is known as the Scoto Celtic branch of the great Aryan stock broke away from its parent tree by what route its migrants travelled in what degree of consanguinity it stood to the equally Celtic race or races of Britain what sort of people inhabited Ireland previous to the first Aryan invasion all this is in the last degree uncertain though that it was inhabited by some race or races outside the limits of that greatest of human groups seems from ethnological evidence to be perfectly clear When first it dawns upon us through that thick darkness which hangs about the birth of all countries whatever their destiny it was a densely wooded and scantily peopled island lying a loose as old Campion the Elizabethan historian tells us upon the West Ocean though his further assertion that in shape it resembleth an egg plain on the sides and not reaching forth to the sea in nooks and elbows of Land as Brittain doeth cannot be said to be quite geographically accurate the last part of the description referring evidently to the east coast the only one with which like most of his countrymen he was at that time familiar Geographically then and topographically it was no doubt in much the same state as the greater part of it remained up to the middle or end of the sixteenth century a wild tangled roadless land that is to say shaggy with forests abounding in streams abounding too in lakes far more doubtless than at present drainage and other causes having greatly reduced their number with rivers bearing the never failing tribute of the skies to the sea yet not so thoroughly as to hinder enormous districts from remaining in a swamped and saturated condition given up to the bogs which even at the present time are said to cover nearly one sixth of its surface
