The Science Of Discworld:

The Science of Discworld Terry Pratchett, Ian Stewart, Jack Cohen, 2013-05-06 The wizards of Unseen University find that they've accidentally created a new universe when an experiment goes adrift. Within this universe is a planet they name Roundworld. The Universe is of course our own and Roundworld is Earth. This offers a wonderful wizard's-eye view of our universe and once seen it will never seem the same again. *The Science of Discworld II* Terry Pratchett, Ian Stewart, Jack Cohen, 2013-05-06

The Globe weaves together a fast-paced Discworld novelette with cutting-edge scientific commentary on the evolution and development of the human mind, culture, language, art, and science. The result is an original view of the world we live in. **The Science of Discworld IV** Terry Pratchett, Ian Stewart, Jack Cohen, 2014-03-03

Marjorie Daw is a librarian and takes her job and indeed the truth of words very seriously. She doesn't know it, but her world and ours

Roundworld is in big trouble. On Discworld a colossal row is brewing. The Wizards of Unseen University feel responsible for Roundworld as one would for a pet gerbil. *The Science of Discworld* Terry Pratchett, 2000 **The Science Of Discworld**

Revised Edition Ian Stewart, Jack Cohen, Terry Pratchett, 2011-10-31 When a wizardly experiment goes adrift, the wizards of Unseen University find themselves with a pocket universe on their hands. Roundworld, where neither magic nor common sense seems to stand a chance against logic. The Universe, of course, is our own. And Roundworld is Earth. As the wizards watch their accidental creation grow, we follow the story of our universe from the primal singularity of the Big Bang to the Internet and beyond. Through this original Terry Pratchett story with intervening chapters from Cohen and Stewart, we discover how puny and insignificant individual lives are against a cosmic backdrop of creation and disaster. Yet paradoxically, we see how the richness of a universe based on rules has led to a complex world and at least one species that tried to get a grip of what was going on. *"The" Science of Discworld* Terry Pratchett, Ian Stewart, Jack Cohen, 2002 *Science of*

Discworld III: Darwin's Watch Ian Stewart, Jack Cohen, Terry Pratchett, 2011-06-30 Roundworld is in trouble again and this time it looks fatal. Having created it in the first place, the wizards of Unseen University feel vaguely responsible for its safety. They know the creatures who lived there escaped the impending Big Freeze by inventing the space elevator; they even intervened to rid the planet of a plague of elves who attempted to divert humanity onto a different time track. But now it's all gone wrong. Victorian England has stagnated and the pace of progress would embarrass a limping snail. Unless something drastic is done, there won't be time for anyone to invent spaceflight and the human race will be turned into ice pops. Why though did history come adrift? Was it Sir Arthur Nightingale's dismal book about natural selection? Or was it the devastating response by an obscure country vicar called Charles Darwin whose bestselling *Theology of Species* made it impossible to refute the divine design of living creatures? Either way, it's no easy task to change history as the wizards discover to their cost. Can the God of Evolution come to humanity's aid and ensure Darwin writes a very different book? And who stopped him writing it in the first place? *The Globe* Terry Pratchett, Ian Stewart, Jack Cohen, 2015-01-20 Roundworld aka Earth is under

siege Are three wizards and an orangutan Librarian enough to thwart the Elvish threat When the wizards of Unseen University first created Roundworld they were so concerned with discovering the rules of this new universe that they overlooked its inhabitants entirely Now they have noticed humanity And humanity has company Arriving in Roundworld the wizards find the situation is even worse than they d expected Under the elves influence humans are superstitious fearful and fruitlessly trying to work magic in a world ruled by logic Ridcully Rincewind Ponder Stibbons and the orangutan Librarian must travel through time to get humanity back on track and out of the dark ages The Globe goes beyond science to explore the development of the human mind Terry Pratchett and his acclaimed co authors Ian Stewart and Jack Cohen combine the tale of the wizards rewriting human history with discussions of the origins and evolution of culture language art and science offering a fascinating and brilliantly original view of the world we live in *The Science of Discworld* Terry Pratchett,2002

University's wizards must once again save Roundworld Earth that is from an apocalyptic end Ever since a wizardly experiment inadvertently brought about the creation of Roundworld the wizard scholars of Unseen University have done their best to put things on the right course In Darwin's Watch they may face their greatest challenge yet A man called Darwin has written a bestselling book called *The Theology of the Species* and his theory of scientific design has been witlessly embraced by Victorian society As a result scientific progress has slowed to a crawl and the wizards must find a way to change history back to the way it should have been DARWIN'S WATCH EXPLORES THE REVERBERATIONS of major scientific advances on our planet and our culture the dangers of obscurantism and the theory of evolution as you have never seen it before This brilliant addition to Pratchett's beloved Discworld series illustrates with great wit and wisdom how the laws of our universe truly are stranger than fiction *The Science of Discworld* Terry Pratchett,Ian Stewart,Jack Sidney Cohen,2003 The Globe weaves together a fast paced Discworld novelette with cutting edge scientific commentary on the evolution and development of the human mind culture language art and science The result is an original view of the world we live in *The Science of Discworld* Terry Pratchett,2002 *The Science of Discworld III* Terry Pratchett,Ian Stewart,Jack Cohen,2013-05-06 Roundworld is in trouble again and this time it looks fatal Having created it in the first place the wizards of Unseen University feel vaguely responsible for its safety They know the creatures who lived there escaped the impending Big Freeze by inventing the space elevator they even intervened to rid the planet of a plague of elves who attempted to divert humanity onto a different time track But now it's all gone wrong Victorian England has stagnated and the pace of progress would embarrass a limping snail Unless something drastic is done there won't be time for anyone to invent spaceflight and the human race will be turned into ice pops Why though did history come adrift Was it Sir Arthur Nightingale's dismal book about natural selection Or was it the devastating response by an obscure country vicar called Charles Darwin whose bestselling *Theology of Species* made it impossible to refute the divine design of living creatures Either way it's no easy task to change history as the wizards discover to their cost Can the God of Evolution come to humanity's aid and ensure Darwin writes a very different book And who stopped him writing it in the first place *The Science of Discworld* ,1999
