

The background of the cover is a photograph of a pond. The water is a pale, milky blue. Numerous lily pads, some green and some brown, float on the surface. In the lower right, a faint, ethereal reflection of a child's face is visible in the water, looking upwards. Bare tree branches are reflected on the left side.

Children's Literature in Translation Jan Van Coillie, Jack McMartin, 2020-10-30 For many of us our earliest and most meaningful experiences with literature occur through the medium of a translated children's book This volume focuses on the complex interplay that happens between text and context when works of children's literature are translated what contexts of production and reception account for how translated children's books come to be made and read as they are How are translated children's books adapted to suit the context of a new culture Spanning the disciplines of Children's Literature Studies and Translation Studies this book brings together established and emerging voices to provide an overview of the analytical empirical and geographic richness of current research in this field and to identify and reflect on common insights analytical perspectives and trajectories for future interdisciplinary research This volume will appeal to an interdisciplinary audience of scholars and students in Translation Studies and Children's Literature Studies and related disciplines It has a broad geographic and cultural scope with contributions dealing with translated children's literature in the United Kingdom the United States Ireland Spain France Brazil Poland Slovenia Hungary China the former Yugoslavia

Sweden Germany and Belgium **Kipling's Children's Literature** Sue Walsh, 2016-04-22 Despite Kipling's popularity as an author and his standing as a politically controversial figure much of his work has remained relatively unexamined due to its characterization as children's literature Sue Walsh challenges the apparently clear division between children's and adult literature and poses important questions about how these strict categories have influenced critical work on Kipling and on literature in general For example why are some of Kipling's books viewed as children's literature and what critical assumptions does this label produce Why is it that *Kim* is viewed by critics as transcending attempts at categorization Using Kipling as a case study Walsh discusses texts such as *Kim* *The Jungle Books* *the Just So Stories* *Puck of Pook's Hill* and *Rewards and Fairies* re-evaluating earlier critical approaches and offering fresh readings of these relatively neglected works In the process she suggests new directions for postcolonial and childhood studies and interrogates the way biographical criticism on children's literature in particular has tended to supersede and obstruct other kinds of readings *British Children's Fiction in the Second World War* Owen Dudley Edwards, 2007-08-01 What children read in the Second World War had an immense effect on how they came of age as they faced the new world This time was unique for British children parental controls were often relaxed if not absent and the radio and reading assumed greater significance for most children than they had in the more structured past or were to do in the more crowded future Owen Dudley Edwards discusses reading children's radio comics films and book related play activity in relation to value systems the child's perspective versus the adult's perspective the development of sophistication retention and loss of pre-war attitudes and their post-war fate British literature is placed in a wider context through a consideration of what British writing reached the USA and vice versa and also through an exploration of wartime Europe as it was shown to British children Questions of leadership authority individualism community conformity urban rural division ageism class race and gender awareness are explored In this incredibly broad ranging book covering over 100 writers Owen Dudley Edwards looks at the literary inheritance when the war broke out and asks whether children's literary diet was altered in the war temporarily or permanently Concerned with the effects of the war as a whole on what children could read during the war and what they made of it he reveals the implications of this for the world they would come to inhabit **Children with a Star** Deborah Dwork, 1991-01-01 The book is based on hundreds of oral histories conducted in Europe and North America with survivors who were children in the Holocaust primary documentation uncovered by the author including diaries letters photographs and family albums and archival records Drawing on these sources Dwork reveals the feeling daily activities and perceptions of Jewish children who lived and died in the shadow of Holocaust She reconstructs and analyzes the many different experiences the children faced In the early years of Nazi domination they lived at home increasingly oppressed by rising anti-Semitism Later some went into hiding while others attempted to live openly on gentile papers As time passed more and more were forced into transit camps ghettos and death and slave labour camps Although nearly 90 percent of the Jewish children in Nazi Europe were murdered

we learn in this history not of their deaths but of the circumstances of their lives Children, Morality and Society S. Frankel, 2012-04-17 This book explores the extent to which children engage with questions of morality arguing that they are active members of society who have both the capacity and understanding to engage with discourses of morality

Children's Dreams C. G. Jung, 2012-01-12 In the 1930s C G Jung embarked upon a bold investigation into childhood dreams as remembered by adults to better understand their significance to the lives of the dreamers Jung presented his findings in a four year seminar series at the Swiss Federal Institute of Technology in Zurich Children s Dreams marks their first publication in English and fills a critical gap in Jung s collected works Here we witness Jung the clinician more vividly than ever before and he is witty impatient sometimes authoritarian always wise and intellectually daring but also a teacher who though brilliant could be vulnerable uncertain and humbled by life s great mysteries These seminars represent the most penetrating account of Jung s insights into children s dreams and the psychology of childhood At the same time they offer the best example of group supervision by Jung presenting his most detailed and thorough exposition of Jungian dream analysis and providing a picture of how he taught others to interpret dreams Presented here in an inspired English translation commissioned by the Philemon Foundation these seminars reveal Jung as an impassioned educator in dialogue with his students and developing the practice of analytical psychology An invaluable document of perhaps the most important psychologist of the twentieth century at work this splendid volume is the fullest representation of Jung s views on the interpretation of children s dreams and signals a new wave in the publication of Jung s collected works as well as a renaissance in contemporary Jung studies *Chaucer as Children's Literature* Velma Bourgeois Richmond, 2015-01-24

Although Geoffrey Chaucer is the major author for Middle English studies he often receives little notice in studies of children s literature However there is a fascinating relationship between Chaucer and children s interests This book examines in detail Chaucer stories retold for children both the texts and the illustrations which are excellent examples of the verbal and visual storytelling that are very important in children s literature The popularity of certain Chaucer stories their adjustment for children and the historical political educational and social contexts of the retellings reveal Victorian and Edwardian attitudes The author also considers how retellings of Chaucer stories contributed to the traditional view of Chaucer as the Father of English and how this view of him was developed at the turn of the twentieth century as part of an expansion of general education and English studies **Music in the Early Years** Aelwyn Pugh, Lesley Pugh, 2013-11-05 Research findings repeatedly show that music is one of the subjects which teachers feel least confident to tackle There are many reasons for this not least being the lack of appropriate guidance and training This book is designed to help overcome these problems by providing class teachers with clear advice on how to plan resource and deliver a comprehensive programme which will challenge their pupils and enable them to progress and meet national requirements The book includes examples and activities which can be used as a basis for in service training within schools particularly for teachers who regard
