The Secret Life of Wombats James Woodford, 2012-01-30 Whitley Award winner for Best Popular Zoology Book With his usual brilliance James Woodford explores the wombat's bizarre evolutionary history and perilous future This is popular science writing at its best an irresistible subject in the hands of an irrepressible author **Welcome, Wombat** Kama Einhorn, 2018 This entry in the True Tales of Rescue provides an up close look at what life is like at a real wombat sanctuary in Australia straight from a wombat herself Includes full color photos graphics and maps **Quarterly Essay 46 Great Expectations** Laura Tingle, 2013-09-21 Rather than relaxed and comfortable Australians are disenchanted with politics and politicians In Quarterly Essay 46 Laura Tingle shows that the reason for this goes to something deep in Australian culture our great expectations of government Since the deregulation era of the 1980s Tingle finds governments can do less but we wish they could do more From Hawke to Gillard each prime minister has grappled with this dilemma Keating sought to change expectations Howard to feed a culture of entitlement Rudd to reconceive the federation Through all of this and back to our origins runs an almost childlike sense of the government as saviour and provider that has remained constant even as the world has changed Now we are an angry nation and the Age of Entitlement is coming to an end What will a different politics look like And Tingle asks even if a leader surfs the wave of anger all the way to power what answer can be given to our great expectations It is wrong to see the anger of the last few years as a one off which might go away at the next election The things we are angry about betray the changes that have been taking place over recent decades Politicians no longer control interest rates the exchange rate or wages prices or industries that were once protected or even owned by government Voters are confused about what politicians can do for them in such a world Laura Tingle Great Expectations The Dog Fence James Woodford, 2013-06-18 An extraordinary and absorbing book about travel history and one of the loneliest environments in the world Great White James Woodford, 2014-12-01 I remember thinking two things at the time Firstly if it had wanted to eat us we wouldn't have stood a chance and second it didn't want to eat us When James Woodford was confronted by half a dozen sharks swimming at full speed he froze in shock But he was even more surprised when they swam right past completely ignoring him He couldn't reconcile this experience with the mindless eating machines that dominate the discussion of sharks in Australia Interviewing world renowned experts and joining research teams at Neptune Islands one of the most famous shark aggregation locations in the world and consequently one of the most dangerous dive sites James investigates these intriguing creatures at close range and discovers their fascinating world **The Marsupial Order** Rebecca Steffoff, 2008 Mammals with young that develop in pouches after birth are marsupials or metatherians Kangaroos koalas and Tasmanian devils are just a few of the best known members of this order Dozens of small shy little known species are found in the Americas and around Australia The Marsupial Order explores the origins of these mammals and examines their unusual reproductive method which has unique advantages In addition The Marsupial Order discusses the biology life cycles and

ecological roles of marsupials as well as current threats to their survival and approaches to conservation With a survey of the various metatherian suborders and families The Marsupial Order introduces pouched mammals from wombats to wallabies and beyond Book jacket
