**The Snarling Logician** Andrew Marker, 2014-10-23 The Snarling Logician presents the reflections of a free thinker It explains in what sense free thinking is free and also the sense in which it is not Free thinking the author argues essentially involves a commitment to follow the evidence wherever it leads and to accept the conclusions of rational inquiry even if those conclusions initially displease us The book contains three essays The first explores the nature of the philosophic quest It emphasizes the difficulty of doing philosophy and the even greater difficulty of writing about it in plain language The second essay defends the philosophy of evidentialism and shows why religious faith inevitably has a corrupting influence on the human mind The final essay attempts to prove beyond any reasonable doubt that there is no God This is not the undecidable question many take it to be There are in fact at least three cogent arguments for the atheistic position any one of which would suffice to demonstrate the irrationality of traditional western monotheism as found in the religions of Christianity judaism and Islam Although the concept of evil appears in all three arguments the famous argument from evil is not one of the three offered here The common notion that the argument from evil is the best or even the only serious objection to theism is simply false

**Reason and the Heart** William J. Wainwright, 2006 Between the opposing claims of reason and religious subjectivity may be a middle ground William J Wainwright argues His book is a philosophical reflection on the role of emotion in guiding reason There is evidence he contends that reason functions properly only when informed by a rightly disposed heart The idea of passional reason so rarely discussed today once dominated religious reflection and Wainwright pursues it through the writings of three of its past proponents Jonathan Edwards John Henry Newman and William James He focuses on Edwards whose work typifies the Christian perspective on religious reasoning and the heart Then in his discussion of Newman and James Wainwright shows how the emotions participate in non religious reasoning

Finally he takes up the challenges most often posed to notions of passional reason that such views justify irrationality and wishful thinking that they can't be defended without circularity and that they lead to relativism His response to these charges culminates in an eloquent and persuasive defense of the claim that reason functions best when influenced by the appropriate emotions feelings and intuitions      *Rationality and Religion* Roger Trigg,1998      **Religious Reason** Ronald Michael Green,1978 The purpose of this book is to call the separation of reason and religion into question      Rationality and Religious Belief Cornelius F. Delaney,1979 The original essays in this volume call into question the simplistic strategy of characterizing religion by some abstract set of propositions and then judging it by means of an independently determined standard of rationality      **Rationality and Reflection** Jonathan L. Kvanvig,2014 This book sets out a theory of rationality a theory about how to determine what to think which defends a significant degree of optionality in the story of what is reasonable for people to think and thereby provides a framework for explaining what kinds of rational disagreement are possible Publisher's description      **Rationality in Science, Religion, and Everyday Life** Mikael Stenmark,2016-09-15 Mikael Stenmark examines four models of rationality and argues for a discussion of rationality that takes into account the function and aim of such human practices as science and religion      The Rationality of Belief in God George I. Mavrodes,1970 Believe by W James Faith as passionate commitment by S Kierkegaard God as projection by L A Feuerbach Bibliographical essay p 205 208      Return to Reason Kelly James Clark,1990-03-22 Clark provides a penetrating critique of the Enlightenment assumption of evidentialism that belief in God requires the support of evidence or arguments to be rational His assertion is that this demand for evidence is itself both irrelevant and irrational His work bridges the gap between technical philosopher and educated layperson      **The Territories of Human Reason** Alister E. McGrath,2019 The Territories of Human Reason is the first major study to explore the emergence of multiple situated rationalities It focuses on the relation of the natural sciences and Christian theology but its approach can easily be extended to other disciplines

**Reason and Religion** Stuart C. Brown,1977 Five symposia from a conference in 1975 debating on some of the largest topics in the search for reason      *Is God A Delusion* Eric Reitan,2009-02-11 *Is God a Delusion* addresses the philosophical underpinnings of the recent proliferation of popular books attacking religious beliefs Winner of CHOICE 2009 Outstanding Academic Title Award Focuses primarily on charges leveled by recent critics that belief in God is irrational and that its nature ferments violence Balances philosophical rigor and scholarly care with an engaging accessible style Offers a direct response to the crop of recent anti religion bestsellers currently generating considerable public discussion      **Reason and religion** John Locke,1694      **Reason in Belief; Or, Faith for an Age of Science: an Examination Into the Rational and Philosophic Content of the Christian Faith** Frank SEWALL,1906      **Reason and Religion: in some useful reflection on the most eminent hypotheses concerning the first principles, and nature of things.
