Transforming the Gateway Course Experience Andrew K. Koch, 2024-12-13 Serving as a call to action for educators to recognize and address inequities in gateway courses this book offers an evidence based model for improving teaching learning and student success within the foundational college classroom Gateway courses often reflect broader societal cultural and economic issues this book argues that inequitable outcomes result from specific practices and policies rather than occurring naturally Using data and examples from his work with various colleges and universities Andrew K Koch highlights the systemic issues that perpetuate inequality in higher education He examines how and why race and class divisions are reinforced through current practice and the impact that these courses have on students sense of belonging By

giving suggestions for policy changes on how to combat high failure rates and challenging myths such as grade inflation and curve grading this text seeks to critique and ultimately dismantle the toxic culture of weeding out students This accessible book is for any college instructor who wants to transform gateway courses into true opportunities for student success ultimately advancing higher education's broader equity and social justice goals      *Maths Foundation Workbook* Fiona C. institutional change Finally Student Success in Community Colleges reveals how investing in a comprehensive basic skills infrastructure can be a financially sustainable model for the institution as well as substantially beneficial to students and society This is a most unusual and valuable book it is packed with careful analysis and practical suggestions for improving basic skills programs in community colleges Compiled by a team of practicing professionals in teaching administration and research it is knowledgeable about what has been done and imaginative and practical about what can be done to improve the access and success of community college students K Patricia Cross professor of higher education emerita University of California Berkeley For its first hundred years the community college was committed primarily to access in its second hundred years the commitment has changed dramatically to success This book provides the best road map to date on how community colleges can reach that goal Terry O Banion president emeritus League for Innovation and director Community College Leadership Program Walden University This guide is the most comprehensive source of information about all facets of basic skills or developmental education It will be invaluable not just to community college educators across the nation but also to those in high schools and four year colleges who share similar problems W Norton Grubb David Gardner Chair in Higher Education University of California Berkeley **!asi! 1Teacher's Book** Mike Calvert,Helena Gonzalez-Florido,Niobe O'Connor,Amanda Rainger,2004 Don t let them drop Spanish A major growing concern in schools is the decline in the number of language students and the impact this could have on your department Which is why we ve developed Asi the only course to captivate all your students and help keep Spanish alive in your school Academic Recovery Michael T. Dial,2022-10-19 Research suggests that as many as a quarter of all undergraduate students may find themselves on academic probation during their collegiate years If students on probation choose to return to their institutions the semester following notification they find themselves in a unique transitional period between poor academic performance and either dismissal or recovery Effectively supporting students through this transition may help to decrease equity gaps in higher education As recent literature implies the same demographic factors that affect students retention and persistence rates e g gender race and ethnicity age also affect the rate at which students find themselves on academic probation This book serves as a resource for practitioners and institutional leaders The volume presents a variety of interventions and institutional strategies for supporting the developmental and emotional needs of students on probation in the first year and beyond The chapters in this book are the result of years of dedication and passion for supporting students on probation by the individual chapter authors While the chapters reflect a culmination of combined decades of personal experiences and education collectively they amount to the beginning of a conversation long past due Scholarship on the impact of academic recovery models on student success and persistence is limited Historically attention and resources have been directed toward establishing and strengthening the first year experience sophomore programs and student success efforts to prevent students from ending up on academic probation However a focus on preventative measures without a consideration of academic recovery program design

considering the successes of these programs is futile This volume should be of interest to academics and practitioners focused on creating or refining institutional policies and interventions for students on academic probation The aim is to provide readers with the language tools and theoretical points of view to advocate for and to design reform and or execute high quality integrated academic recovery programs on campus Historically students on probation have been an understudied and underserved population and this volume serves as a call to action
