with other writers and artists presenting not only a different angle on the work but setting him within a broader literary and artistic context. Such an approach offers a view of McCarthy that is strikingly different to previous collections that have dealt with the work in an almost exclusively single author and/or single genre mode. McCarthy's novels are increasingly regarded as amongst the most rich, the most complex and the most insightful of all recent literary responses to prevailing conditions in both the USA and beyond, and this collection recognizes the intertextual and interdisciplinary nature of his work. Contributors draw back the curtain on some of McCarthy's literary ancestors, revealing and analyzing some of the fiction's key contemporary intertexts and showing a complex and previously underestimated hinterland of influence. In addition, they look beyond the novel both to other genres in McCarthy's oeuvre and to the way these genres have influenced McCarthy's writing.

Petrified Joshua Wodak, 2025-04-01 A rupture of life on Earth is currently unfolding. What then does this rupture signify, not only in terms of being alive during such an upheaval but also in terms of being alive to upheaval itself? *Petrified: Living During a Rupture of Life on Earth* takes the reader on a journey deep into the nature of our home to give us the tools to learn how, in the middle of that rupture, to comport ourselves with honesty, clarity, culpability and intelligence. The purpose of this journey is straightforward: to formulate the basis of a philosophy for living during this rupture of life on earth. A philosophy for living in the twenty-first and last century of life as we have known it on our planet. A toolkit as it were for living at the confluence between being petrified at the prospect of extinction and becoming petrified in the most real and physical sense. Lyrical, playful and deadly serious, *Petrified* aims to provide a new worldview for a new world coming, creating a present-day fable about achieving fidelity to the vicissitudes of the cosmos. Wherein the book asks if desperate times call for desperate measures, how can the response be measured against its only true correlate, the cosmos. **The Routledge Handbook of**

Books Are Made Out of Books Michael Lynn Crews, 2024-10-08

Cormac McCarthy told an interviewer for the New York Times Magazine that books are made out of books but he was famously unwilling to discuss how his own writing draws on the works of other writers Yet his novels and plays masterfully appropriate and allude to an extensive range of literary works demonstrating that McCarthy was well aware of literary tradition and deliberately situating himself in a knowing relationship to precursors In *Books Are Made Out of Books* Michael Lynn Crews thoroughly mines McCarthy's literary archive to identify over 150 writers and thinkers that McCarthy referenced in early drafts marginalia notes and correspondence Crews organizes the references into chapters devoted to McCarthy's published works the unpublished screenplay *Whales and Men* and McCarthy's correspondence This updated edition now examines McCarthy's final publications the novel *The Passenger* and its play like coda *Stella Maris* For each work Crews identifies authors artists or other cultural figures that McCarthy referenced gives the source of the reference in McCarthy's papers provides context for the reference as it appears in the archives and explains the significance of the reference to the novel or play that McCarthy was working on This groundbreaking exploration of McCarthy's literary influences vastly expands our understanding of how one of America's foremost authors engaged with the ideas images metaphors and language of other thinkers and made them his own
