Proceeding Book of Proceeding Indonesian Textile Conference : textile 4.0 clothing and beyond (international conference) Asril Senoaji Soekoco, Karlina

Somantri, Valentinus Galih Vidia Putra, 2019-07-27 Welcome to the 3rd Indonesian Textile Conference ITC 2019 It is our great honor and pleasure to have you all here today Indonesian Textile Conference is by far the only scientific event in the field of textiles in Indonesia aimed to bring together leading researchers experts students and people from the industry to share their knowledge and exchange scientific ideas Indonesia is one of the leading textile exporter countries in the world with a total export value of USD 15.3 billion in 2015 and ranked the third after palm oil and steel source Ministry of Industry of Republic of Indonesia It is one of the ten priority industries and the mainstay of Indonesian national industry In a global economy and fast changing world the future of Indonesian textile industry will increasingly depend on the industry s ability to

relentlessly innovate in its products to use the most advanced flexible and resource efficient processes and to focus its organizational structure as well as business operations according to the ever changing and growing needs of its customers In all that research and innovation are vital and play an ever increasing role Indonesian Textile Conference was initiated and is dedicated to promote and bring progress to research and innovation in the field of textile and textile related subjects in Indonesia Textile is a rich multidisciplinary area of study and in fact has attracted a great deal of attention and numerous contributions from non textile scientists It is not just about clothing It is all about material and all aspects that are inherent in the process of its production and applications It covers a whole lot of area which includes but not limited to advanced material and textile fibers natural fibers and natural dyes utilization of natural sources for textiles in general and or functional textiles environmental protection and ecological considerations in textile industry life cycle analysis clean green production best practices in energy efficient processes bio based polymer bioengineering nanotechnology textile based composites industrial management and engineering traditional textiles and batik textile preservation and conservation and design Smart functional and interactive textile is another area of interest which is quite recent and resulted from the convergence of latest developments in material science physics and chemistry microelectronics and informatics Stimuli responsive materials self healing polymers textile energy devices textile sensor and antenna are only a few examples of development in this area Recently added to this is a new emerging fashionable technology It is a new concept that brings fashion to the next level by integrating technology and fashion It looks at the future fashion as intersection of design fashion science and technology beyond wearable technology Still another important and interesting issue in textile is sustainability especially due to the stigma associated with the industry as the big polluter and being not environmentally friendly Sustainable textiles and clothing involves the choice of materials technologies and processing methods that ensure environmental and social friendliness and safety to human health throughout the entire life cycle phases Thus there is an ample room for almost everyone to contribute in this conference On behalf of the Organizing Committee and the management of Politeknik STTT Bandung have a productive and fruitful conference

Fashion Business and Digital Transformation Charlene Gallery,Jo Conlon,2024-06-28 Fashion Business and Digital Transformation provides a practical and holistic overview of the fashion industry and the key technologies impacting the fashion supply chain It covers product design and development production sales and customer experiences in physical online and virtual environments The key technologies impacting the ecosystem are explored including artificial intelligence virtual reality augmented reality digital fashion design NFTs 3D textiles and blockchain Strategic concepts such as retailtainment phygital gamification and e commerce are analysed alongside the effect of these key strategies for both the retailer and the customer Theoretical foundations are supported by extensive use of examples interviews and case studies drawn from a wide range of global fashion disrupters and cutting edge brands Engaging activities exercises and technical step by step guides are incorporated

throughout which will both consolidate how technology is driving change in the industry but also equip the reader with the key skills and digital literacy capabilities required by future practitioners Online resources include chapter by chapter PowerPoint slides a test bank and links to further resources This examination of the digital transformation of the fashion industry will be essential reading for advanced undergraduate and postgraduate students of Fashion Management Fashion Business and Fashion Technology

Pattern Cutting Dennic Chunman Lo, 2021-01-07 This practical guide explains how to take accurate measurements introduces key tools and takes you from simple pattern cutting ideas to more advanced creative methods Step by step illustrations show how to create and then fit basic bodice sleeve skirt dress and trouser blocks and how to adapt these to create patterns for original designs New material includes advice on fitting toiles and working with stretch fabrics There is also a fully updated chapter dedicated to digital technology New to this edition Access to 32 instructional videos

Technical Drawing for Fashion Basia Szkutnicka, 2010-04-05 Technical Drawing for Fashion explains how to create a technical fashion drawing using a simple and straightforward step by step method explained for those who wish to use Adobe Illustrator as well as for those who prefer to draw by hand The second part of the book presents over 600 technical drawings of garment types styles and construction details the basic key shapes of which are shown alongside a specially created and photographed calico toile Accompanying each illustration is a list of all the terms by which that garment is known This unique presentation illustrates the relationship between the three dimensional garment and the two dimensional drawing allowing readers to really understand how to render technical drawings

Inside Fashion Design Sharon Lee Tate, 2004 This best selling text for introductory apparel design courses gives students a close look at the fashion industry from the professional designer's viewpoint The book is known for its clear and comprehensive coverage and its excellent illustrations Each chapter links stylishly updated visual images with relevant concepts Coverage of the role of computers and digital technology are integrated into every phase of the design and production of apparel Publisher description

Pattern Cutting: The Architecture of Fashion Pat Parish, 2020-10-08 Pattern cutting or pattern making is an essential yet complex skill for every fashion designer to master Pattern Cutting The Architecture of Fashion demystifies the pattern cutting process and clearly demonstrates pattern fundamentals enabling you to construct in both 2D and 3D and quickly get to grips with basic blocks shape sleeves collars trousers pockets and finishes Pat Parish approaches the subject of pattern cutting through proportion balance line and form identifying key shapes and structures from the catwalk and translating them into 3D through cutting draping and construction processes This popular and inspirational sourcebook has been updated to reflect new directions in construction design and techniques and to include more advanced patterns such as the Magyar sleeve and the jumpsuit With handy tips shortcuts and tricks of the trade the second edition of Pattern Cutting is a must have studio resource for all budding fashion designers It will provide you with the inspiration tools and confidence to interpret and adapt basic patterns and take your designs to the next level New to this edition Step by step instructions for more complex patterns
