Paysage Au Pluriel Pour Une Approche Ethnologique Des Paysages:

Paysage au pluriel Claudie Voisenat, 1995 Qu est ce au juste qu un paysage Pourquoi lui accorde t on aujourd hui tant d importance Rarement naturel presque toujours façonné par l homme il est dans nos sociétés le fruit d une histoire vieille de quatre siècles au cours de laquelle se sont peu peu laborieusement transmis modifiés des modèles paysagers qui déterminent notre perception de l espace Récemment le paysage est aussi devenu un enjeu social écologique et économique voire électoral Le contrôler c est bien sûr contrôler l espace mais plus largement le devenir de notre société et de ses valeurs Il est également un marché potentiel avec ses professionnels ses stratégies d intervention ses systèmes d expertise qui jouent souvent de l ambiguïté entre crise paysagère et crise sociale et du consensus qui assimile de plus en plus le paysage un patrimoine à sauvegarder ou tout au moins gérer Finalement le paysage fonctionne comme un symbole une représentation dont chacun use des fins différentes Et qui mieux que l ethnologue peut témoigner de la force et parfois de la violence des symboles Ces dix huit articles sont pour la plupart issus d un appel d offres initié par la mission du Patrimoine ethnologique ministériel de la Culture avec la participation du SRETIE ministériel de l Environnement

Landscape and Identity in the Modern Basque Country, 1800 to 1936

Maitane Ostolaza, 2022-12-30 Landscape and Identity in the Modern Basque Country 1800 to 1936 studies the relationship between landscape and modern identities in the Basque Country Using an interdisciplinary approach that combines cultural history and geography it analyses the process of historical construction of the Basque landscape highlighting its multiple political social and cultural meanings The book is divided into two parts the first examines the discourses images and representations of the Basque landscape the second examines landscape practices through tourism hiking and mountaineering Focusing on the Basque case but establishing numerous connections with comparable phenomena in Western Europe the book demonstrates that the landscape became a structuring element insofar as it helped shape individual identities while participating in the creation of social links This book examines the processes of identity construction from below by means of new interpretative tools such as the experience of landscape This work originally published in French brings to an English speaking audience a crucial issue in the modern history of the Basque Country namely the cultural construction of a collective identity within the framework of a nation state such as Spain confronted with multiple territorial identities Approaching this question from the perspective of landscape provides new keys to understanding the processes of nation building that occurred in Europe in the nineteenth and twentieth centuries

Paysages en perspective Gérald Domon, Philippe Poullaouec-Gonidec, Sylvain Paquette, Université de Montréal. Chaire en paysage et environnement, 2005 Il peut paraître étonnant de consacrer tout un livre à l'étude des inégalités sociales en matière de santé dans le cadre des pays occidentaux très majoritairement dotés de systèmes universels de soins de qualité Pourtant force est de constater que les disparités sociales persistent encore dans nos sociétés où l'égalité de traitement n'est toujours pas synonyme d'égalité sur le plan de la santé et devant la mort Cet ouvrage dresse un portrait détaillé et offre une analyse rigoureuse

des inégalités sociales dans le domaine de la santé mettant en lumière les recherches importantes faites en sciences sociales en psychologie et en sciences de la santé Tout en proposant des pistes d'intervention Ginette Paquet montre le rôle déterminant de la petite enfance dans le développement du sentiment d'emprise sur la vie et l'importance des facteurs de protection pour ceux qui vivent au bas de l'échelle sociale Renaud Bray **Landscape Ecology** Francoise Burel, 2003-01-05 Part I

Martine Berlan-Darqué, Yves Luginbühl, Daniel Terrasson, 2008 Cet ouvrage rassemble les travaux menés principalement en Europe pour comprendre le fonctionnement des politiques de protection et de gestion du paysage dans des cas concrets et diversifiés Il aborde successivement les enjeux de l'action paysagère les relations entre paysage et espace public dans le contexte urbain les conceptions mobilisées pour laborer et mettre en œuvre des politiques et enfin les modalités de participation du public Il est destiné aux acteurs impliqués dans la mise en œuvre des politiques du paysage mais aussi aux étudiants aux enseignants et aux chercheurs intéressés par le transfert des résultats de la recherche au bénéfice de l'action paysagère **Paysages d'énigmes** Igor Babou, Lionel Charles, Philippe Hilaire, Bernard Kalaora, Joëlle Le Marec, Carpanin Marimoutou, Yogan Muller, Jacky Vieux, 2017-04-01 Nul ne peut prétendre finir le paysage comme un objet qui serait soit entièrement culturel soit entièrement naturel il supporte maints cadres théoriques philosophique esthétique historique anthropologique sociologique etc tout en ayant constitué un réservoir d'agir politique et d'expression artistique le caractère flou du concept autorise tous les confort interprétatifs mais aussi tous les abus gestionnaires C'est pourquoi il constitue un terrain particulièrement intéressant pour confronter des points de vue des pratiques et des méthodologies L'idée est donc de contourner les approches parfois exclusivement scientifiques ce que nous dit le paysage ce que signifie le paysage etc ou parfois uniquement sociologiques le paysage comme construit social pour interroger ce qui dans le paysage dérange nos prétentions la modulation ou au surplomb par exemple comment maintenir dans nos objets et actions la sensibilité les troubles ou les énigmes liés aux difficultés de penser la fois la nature et les institutions les représentations et les actions les engagements et les déplacements des individus les approches scientifiques et les intérêts des praticiens Forms of

Experienced Environments Nathalie Blanc, Théa Manola, Patrick Degeorges, 2020-02-26 This book explores environmental forms in terms of their relationships to the socio-political ecological transformations currently in progress Today the environment is a central theme in political discourse scientific work and everyday life It is multi-dimensional it is a living space a socio-ecological system and a field of research and action However despite the presence and diversity of existing approaches the ways in which policies address environmental issues remain mainly focused on control highlighting the techno-ecological managerial and curative dimensions of public actions Although public action tends to instrumentalise the

environment the humanities and social sciences have initiated significant reflections in this field proposing alternative ways of thinking about the environment in its multiple aspects and scales As part of another approach to the environment that mirrors contemporary developments this book adopts a form based approach which has been largely neglected by previous studies dealing with environmental themes The analyses provided here will open up a new perspective on the relationships between people aesthetics and environments and are drawn from different schools of research highlighting the huge potential of reading the environment through forms or conversely a reading of environmental forms Paysages en herbe Monique Toubanc, 2004 Con u l intention des enseignants et des formateurs l ouvrage pr sente une m thodologie pour g rer un projet d agriculture durable le diagnostic l laboration du projet le suivi et l valuation Le paysage est pris en compte chaque tape de la d marche *Paysages ordinaires* Jean-Pierre Dewarrat, 2003 La logique de la protection adapt e aux paysages exceptionnels est inop rante pour les paysages ordinaires qui sont pourtant l crasante majorit Un t moignage sur les pratiques d am nagement local ces gestes toujours recommenc s d appropriation collective qui constituent un territoire en paysage une population en collectivit et cette collectivit en auteur de son destin **Research Handbook on Intellectual Property and Geographical Indications** Dev S. Gangjee, 2016-02-26 In an increasingly globalised world place and provenance matter like never before The law relating to Geographical Indications GIs regulates designations which signal this provenance While Champagne Prosciutto di Parma Caf de Colombia and Darjeeling are familiar designations the relevant legal regimes have existed at the margins for over a century In recent years a critical mass of scholarship has emerged and this book celebrates its coming of age Its objective is to facilitate an interdisciplinary conversation by providing sure footed guidance across contested terrain as well as enabling future avenues of enquiry to emerge The distinctive feature of this volume is that it reflects a multi disciplinary conversation between legal scholars policy makers legal practitioners historians geographers sociologists economists and anthropologists Experienced contributors from across these domains have thematically explored 1 the history and conceptual underpinnings of the GI as a legal category 2 the effectiveness of international protection regimes 3 the practical operation of domestic protection systems and 4 long unresolved as well as emerging critical issues Specific topics include a detailed interrogation of the history and functions of terroir the present state as well as future potential of international GI protection including the Lisbon Agreement 2015 conflicts between trade marks and GIs the potential for GIs to contribute to rural or territorial development as well as sustain traditional or Indigenous knowledge and the vexed question of generic use This book is therefore intended for all those with an interest in GIs across a range of disciplinary backgrounds Students scholars policy makers and practitioners will find this Handbook to be an invaluable resource **Contesting the Foreshore** Jeremy Boissevain, Tom Selwyn, 2004 This collection of essays examines social political and economic relations in primarily European coastal locations through the lens of tourism The contributors explore the intersecting interests of fishing tourism and development and the conflict among local communities

and market forces all of which are infused with the symbolism of the sea as a place of mystery and danger From the tensions between Cornish villagers and city visitors to the explosion of resort development in Gran Canaria the authors consider the relationship between local residents businesses and tourist newcomers as they vie for status influence and ultimately for space

Methods and Approaches in Forest History Mauro Agnoletti, Steven Anderson, 2000 A companion to Forest History International Studies on Socioeconomic and Forest Ecosystem Change which includes over 20 papers from the same conference This book focuses on the different approaches and methods adopted in the study of forest history The interdisciplinary nature of these studies is emphasized bringing in the different perspectives of anthropologists botanists ecologists foresters historians geneticists and geographers This volume demonstrates the rich diversity of approaches and methods to forest history and the need to integrate them to give a more meaningful understanding of human nature interactions making forest history a more effective tool for the management of forest ecosystems
