State-Building in Kosovo Andrea Lorenzo Capussela,2019-10-31 The history of Kosovo is a complicated one which typifies the darker side of modern Balkan history Milosevic s Serbia withdrew from Kosovo in 1999 and the province was handed over to a special UN body who governed until 2008 when the West allowed Kosovo to become independent The aim was to erect a stable and well governed democracy but the outcome was a fragile state which still threatens the stability of the Balkans and Europe s internal security How did this happen Here Andrea Lorenzo Capussela offers an inside look at the process of building democracy in Kosovo As head of the economics unit of Kosovo s international supervisor Capussela has had access to previously unknown sources and information regarding the roles of the EU and the US in the crisis This will be an essential reading for those studying the Kosovo crisis

**Record** International Finance Corporation,2011 This book of SmartLessons is a compendium of our knowledge on implementing corporate governance projects The lessons represent an impressive body of work with individual contributions written by our staff the people who really know what they are talking about because they are out there engaged in the work on a day to day basis It reflects the evolution of our project approach as the world has changed In the early years of our work efforts focused on the newly independent and newly market driven nations of the former Soviet Union More recently projects

have addressed the sometimes rocky road to stability for emerging market countries as they struggle to regain economic momentum in the wake of the global financial crisis. Meanwhile, new opportunities and new challenges lie ahead as events in the Middle East and North Africa underscore the broader importance of IFC's core mission to drive job creation and economic development by supporting expansion of well-governed, sustainable and thriving private sectors. One IFC in Practice Caroline Bright, Ralitza Germanova, 2012. The Azerbaijan Corporate Governance Project (ACGP) worked to improve corporate governance practices in Azerbaijani companies and commercial banks and to strengthen the relevant regulatory framework for corporate governance. The project achieved strong development impact and is an example of how the work that the advisory services business lines do can lead to an investment opportunity for International Finance Corporation (IFC). It is also an excellent example of the strength in leveraging global-local partnerships and of a collaborative use of different advisory services products. Covering the full spectrum of corporate governance services offered by IFC in many ways, the model of joint work under this project has been used in designing and implementing future corporate governance projects. Every success comes through overcoming certain challenges and this project was no exception. The authors were working in a situation where one donor funded two separate corporate governance projects in one country. In this smart lesson, the authors share the lessons that we learned in finding solutions in order to work together efficiently, including several parts of IFC working with one particular client company.
