Reframing Police Education and Freedom in America Martin Alan Greenberg, Beth Allen Easterling, 2023-09-15 This book untangles the components of police education and advocates a robust community based training model with significant civilian oversight The recommended approach recognizes that the citizenry needs to be included in the provision of basic police education for it is they who must both support and be served by their police The police must be role models for society demonstrating that freedom and rights come with obligations both to the community as a whole and to individuals in need within that community Ultimately the quality of police training and the public's safety depend not only on the leadership of police executives as well as the quality of educational institutions and police candidates but also on the building of a community's trust in its police The issues of police recruitment education and retention have greater consequence in an era when protests and other signs of negativity surround law enforcement Several incidents including most notably George Floyd's murder by police have sparked new training initiatives regarding police de escalation and community engagement At the same time the proliferation of gun violence and a contentious political climate have led some officers to refrain from undertaking proactive types of policing In this context reform of the police education system is urgent This book examines police training at all levels of government local regional state and federal In addition citizen participation programs including the role of the media and programs for furthering law related education LRE are highlighted The proposed police education model recognizes that ordinary members of the American public need to contribute to the provision of basic police education for it is they who must both support and be served by their police The focus is on teaching a guardian style of policing at the local level Police education would combine higher education necessary practical proficiencies and intensive field experiences through a gradual level of greater responsibility likely extending over a 2 plus year period for trainees with less than a year of previous college credits This book will be of interest to a wide range of audiences such as law enforcement professionals and trainers including those in executive development programs in police departments community leaders scholars and policy experts who specialize in policing concerned citizens and students of criminal justice especially those interested in police organization and management criminal justice policy and the historical development of police

Escaping Jurassic Government Donald F. Kettl,2016-05-10 Why big government is not the problem The Progressive government movement founded on support from Republicans and Democrats alike reined in corporate trusts and improved the lives of sweatshop workers It created modern government from the Federal Reserve to the nation s budgetary and civil service policies and most of the programs on which we depend Ask Americans today and they will tell you that our government has hit a wall of low performance and high distrust with huge implications for governance in the country Instead of a focus on government effectiveness the movement that spawned the idea of government for the people has become known for creating a big government disconnected from citizens Donald F Kettl finds that both political parties have contributed to the decline of the Progressive ideal of a commitment to competence They have both fed gridlock and created a government that does not work the way citizens expect and deserve Kettl argues for a rebirth of the original Progressive spirit not in pursuit of bigger government but with a bipartisan dedication to better government one that works on behalf of all citizens and that delivers services effectively He outlines the problems in today s government including political pressures proxy tools and managerial failures *Escaping Jurassic Government* details the strategies evidence and people that can strengthen governmental effectiveness and shut down gridlock
