**The Report of the Republic of Botswana's Parliamentary Special Select Committee of Inquiry Into the Botswana Meat Commission and the Decline of the Botswana Beef Industry** Botswana. Parliament. Special Select Committee of Inquiry into the Botswana Meat Commission and the Decline of the Botswana Beef Industry, 2013     A Manufactured Plague Abigail Woods, 2013-06-17 1 Foot and mouth disease in 19th century Britain from everyday ailment to animal plague 2 The politics of plague home rule for Ireland 1912 1923 3 The epidemics of 1922 1924 4 Effects on the Anglo Argentine meat trade 1924 1939 5 The science 1912 1958 6 The 1951 1952 vaccination controversy 7 The 1967 1968 epidemic 8 Foot and mouth disease 2001     **Philippine Business Report** , 2008     Saving Global Fisheries J. Samuel Barkin, Elizabeth R. Desombre, 2013-01-18 A proposal for a new global approach for fisheries focused on reducing fishing capacity and providing incentives for long term sustainability The Earth's oceans are overfished despite more than fifty years of cooperation among the world's fishing nations There are too many boats chasing too few fish In Saving Global Fisheries J Samuel Barkin and Elizabeth DeSombre analyze the problem of overfishing and offer a provocative proposal for a global regulatory and policy approach Existing patterns of international fisheries management try to limit the number of fish that can be caught while governments simultaneously subsidize increased fishing capacity focusing on fisheries as an industry to be developed rather than on fish as a resource to be conserved Regionally based international management means that protection in one area simply shifts fishing efforts to other species or regions Barkin and DeSombre argue that global rather than regional regulation is necessary for successful fisheries management and emphasize the need to reduce subsidies They propose an international system of individual transferable quotas that would give holders of permits an interest in the long term health of fish stocks and help create a sustainable level of fishing capacity globally
