Pilt Payments In Lieu Of Taxes Somewhat Simplified Crs Reports:

Secure Rural Schools and Payment in Lieu of Taxes United States. Congress. Senate. Committee on Energy and Natural Resources, 2013 **Federal Land Management** Samuel T. Prescott, 2003 Federal land ownership and management are of perennial interest to Congress This book describes the constitutional authority for federal land ownership It provides the history of federal land acquisition and disposal and describes the federal land management agency jurisdictions based on congressional authorities to reserve or withdraw lands from disposal Included in the book are also backgrounds on the various agencies that administer and care for the 655 million acres of federal land Progress in Environmental Research Irma C. Willis, 2007 The environment consists of the surroundings in which an organism operates including air water land natural resources flora fauna humans and their interrelation It is this environment which is both so valuable on the one hand and so endangered on the other And it is people which are by and large ruining the environment both for themselves and for all other organisms This book presents important new research on a wide variety of topics in this field **Petrified Forest National Park (N.P.), General Management Plan**, 2004 Local Government Administration in Small Town America James C. Clinger, Donna M. Handley, Wendy L. Eaton, 2023-10-12 In government administration and leadership rural community leaders face unique challenges in delivering public services including but not limited to education health care and public safety Meanwhile residents who live in smaller and more isolated rural settings often face greater difficulties accessing provisions and services or commuting to work among other economic development challenges These factors may affect a community's resiliency to and recovery from shocks such as the COVID 19 pandemic Local Government Administration in Small Town America devotes some overdue scholarly attention to the governance and administration of public programs in small towns and rural communities in the United States The chapter contributors to this volume analyze some of the unique challenges rural communities face as well as the policy tools that their governments employ to address them The book explores ways that small town governments collaborate with one another the state and the federal government and examines how local government officials use knowledge of people and place to improve policy performance The chapters are designed to provide cases and strategies for students and practitioners in public administration to use in a small town environment while also considering a community's distinctive social and political culture which determines how local political leaders and government practitioners might respond to demands and challenges they face Local Government Administration in Small Town America is an essential resource for undergraduate and graduate students studying local government as well as for rural practitioners navigating evolving challenges unique to their communities **American Natural Resources** Carrie D. Slovic, 2006 Natural resources such as coal gold oil fertile soil bountiful wildlife and forests form a major part of America's strength In the twenty first century America is now faced with new questions of how to manage maintain and better exploit these resources There are four federal departments that manage the vast majority of

America's natural resources the Forest Service in the Department of Agriculture the Bureau of Land Management the Fish and Wildlife Service and the National Park Service This book examines how these agencies and others handle American natural resources Public Lands William E. Neeley, 2007 There is a great amount of debate concerning the establishment and use of public lands While there is a desire for recreational areas and parks there are also considerations for the preservation of wilderness and wildlife National parks must determine rules regarding the use of off road vehicles personal watercrafts snowmobiles and the implementation of hiking trails This book examines the growing diversity of recreation on federal lands and the resulting impact on the environment *Forest Resource-based Economic Development in Idaho* Charles C. Harris, Philip S. Cook, Jay O'Laughlin, 2003 *Pilt (Payments in Lieu of Taxes)* Congressional Research Service, 2014-12-05 Under federal law local governments usually counties are compensated through various programs for reductions to their property tax bases due to the presence of most federally owned land These lands cannot be taxed but may create a demand for services such as fire protection police cooperation or longer roads to skirt the federal property Some compensation programs are run by specific agencies and apply only to that agency's land The most widely applicable program administered by the Department of the Interior DOI is called Payments in Lieu of Taxes PILT 31 U S C 6901 6907 Under the statute eligible lands consist of those in the National Park System National Forest System or Bureau of Land Management lands in the National Wildlife Refuge System if they are withdrawn from the public domain lands dedicated to the use of federal water resources development projects dredge disposal areas under the jurisdiction of the U S Army Corps of Engineers lands located in the vicinity of Purgatory River Canyon and Pi on Canyon Colorado that were acquired after December 31 1981 to expand the Fort Carson military reservation lands on which are located semi active or inactive Army installations used for mobilization and for reserve component training and certain lands acquired by DOI or the Department of Agriculture under the Southern Nevada Public Land Management Act P L 105 263 This report addresses only the PILT program administered by DOI The authorized level of PILT payments is calculated under a complex formula No precise dollar figure can be given in advance for each year's PILT authorized level Five factors affect the calculation of a payment to a given county the number of acres eligible for PILT payments the county's population payments in prior years from other specified federal land payment programs state laws directing payments to a particular government purpose and the Consumer Price Index as calculated by the Bureau of Labor Statistics Before 2008 annual appropriations were necessary to fund PILT However beginning with the FY2008 payment and continuing through FY2012 a provision in P L 110 343 for mandatory spending ensured that all counties would receive 100% of the authorized payment P L 112 141 extended mandatory spending to FY2013 though there was a later sequestration of 5.1% for that year PILT's mandatory spending was renewed for another year in P L 113 79 resulting in an FY2014 payment of 436.9 million As yet Congress has not passed a measure for the FY2015 payment normally expected to be dispersed in June 2015 However the House amended H R 3979 to

include the National Defense Authorization Act The amendment included a provision Section 3096 for 70 million in mandatory spending for PILT If enacted this amount would provide roughly 16% of full funding or perhaps less depending on any increase in the formula based authorized amount Supporters of PILT are expected to seek other funding in addition to this amount Over the next few years the broader debate for Congress might then be summarized as three decisions 1 whether to approve full funding of PILT through future extensions of mandatory spending either temporary or permanent 2 whether instead to reduce the payments perhaps through the annual appropriations process or by changing the PILT formula and 3 whether to add or subtract any lands to the list of those now eligible for PILT payments *PILT (payments in Lieu of Taxes)* Katie Hoover,2017
