Johnson, 2020-06-26 Feminism Self Presentation and Pinterest The Labor of Wedding Planning argues that Pinterest which has been largely criticized for perpetuating vapid stereotypical gender roles is actually a dynamic digital curation tool that facilitates meaning making around the important cultural event of the Western wedding Emily S Johnson through a thorough examination of how aspiring brides use the platform to plan their weddings found that Pinterest is a unique platform that offers brides the opportunity to construct their own wedding identity by engaging in creativity and exercising voice and agency during planning Even if the content they are consuming does support tenets of patriarchy or gender roles brides are able to make their own choices rather than having their goals determined for them through societal or familial norms and expectations The platform integrates both the online and offline labors of wedding planning as brides create meaning through the curation process and connect with the self as they execute their planning Overall Johnson argues that far from the stereotypes of fantasizing about dream weddings and luxurious lifestyles that may be unrealistic Pinterest gives brides increased ability to make their own specialized vision come to life Scholars of women's studies gender studies communication media studies cultural studies and rhetoric will find this book particularly useful Discovering The World Of Pinterest Phill Elliot, 2021 It is a fact that we are living in a modern world and we get a lot of advantages and disadvantages for it One advantage that we shouldn't take for granted at all is the use of social media It allows us to reach

The Swords of Ezekiel
Tom McCall ThD, Ed Barrett MS, 2024-05-08 To those who have a fairly good background in the hard sciences Maybe Ezekiel really did mean horses and ancient armor The Swords of Ezekiel accepts the plain teaching of the text that the Magog raiders wield weapons from the generation before the Gunpowder Revolution and use horses for transportation Consequently the narrative that emerges is a dramatic departure from the generally accepted modern weapons teaching of present day scholars In this alternative understanding the two chapters are complementary descriptions of the same series of events i.e. One has details that the other does not have The chronological narrative emerges when the two segments are properly aligned like a spline gear on a drive shaft Thoroughly referenced this is the book to read for a better understanding of the relationship between natural science European history legend as guide to history art as secular prophet archaeology outside the Near East and Bible prophecy The primary motives for the raid are anti Israel resentment jealousy and near starvation levels of crop failure hunger The absence of modern weapons is explained as a combination of industrial collapse and an as yet unobserved destabilization of nitrate based propellants and explosives The merchants of Tarshish are identified as the British Commonwealth based on cultural heritage mineral resources geography and geopolitics The Swords of Ezekiel also suggests a location for these events on the prophetic timeline Prompt access to the references is provided by a link at www.swordsofezekiel.com N.B.
