Nuclear Choices for the Twenty-First Century Richard Wolfson, Ferenc Dalnoki-Veress, 2021-03-23 An authoritative and unbiased guide to nuclear technology and the controversies that surround it Are you for nuclear power or against it What is the basis of your opinion Did you know a CT scan gives you some 2 millisieverts of radiation Do you know how much a millisievert is Does irradiation make foods safer or less safe What is the point of a bilateral Russia US nuclear weapons treaty in a multipolar world These are nuclear questions that call for nuclear choices and this book equips citizens to make these choices informed ones It explains clearly and accessibly the basics of nuclear technology and describes the controversies surrounding its use **Cue** ,1963 *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office, 1962 Includes Part 1 Number 2 Books and Pamphlets Including Serials and Contributions to Periodicals July December

University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Authors & titles University of California (System). Institute of Library Research, University of California, Berkeley, 1972 *A Year Of Sex Fantasy Tales* Juan Salanova, 2019-04-09 12 stories 12 characters 6 men 6 women It begins in 2015 and each story represents a country further east and 10 years before the previous one until it goes around the world In all of them sex beats as a life force Beat by beat full of bodily sensitivity twelve characters six women and six men enter worlds where reason is overwhelmed by passion diving into the past on a continuous journey to the east At every stop you will face real people patients with social diseases that make our planet such a complex and sometimes inhospitable world Sex made into fantasy as a vital impulse will be the constant that will animate the development of your existence An impressive voyeuristic visit to the last century of our history **Religion and Science Fiction** James H. Thrall, 2024-05-17 Religion and Science Fiction An Introduction guides students into deeper understanding of how religion and science fiction engage often overlapping questions This textbook introduces key ideas of religious studies through critical consideration of print and visual media that fall within the general category of science fiction The goal throughout is to help students move beyond simply identifying points of interrelation between religious studies and forms of what is often called more broadly speculative fiction to considering how the studied texts open new ways of thinking about human and nonhuman experience taken to be religious With discussion questions lists of key terms extensive additional resources and suggestions for projects and essay questions this book is a foundational text for students and instructors of religion and science fiction *NASA Technical Translation* ,1976 Film as Religion, Second Edition John C. Lyden, 2019-11-26 Argues that popular films perform a religious function in our culture The first edition of *Film as Religion* was one of the first texts to develop a framework for the analysis of the religious function of films for audiences Like more formal religious institutions films can provide us with ways to view the world and the values to confront it Lyden argues that the cultural influence of films is analogous to that of religions so that films can be understood as representing a religious worldview in their own right Thoroughly updating his

examples Lyden examines a range of film genres and individual films from The Godfather to The Hunger Games to Frozen to show how film can function religiously **Industrial Society and the Science Fiction Blockbuster** Mark T.

Decker,2016-03-01 Can blockbuster films be socially relevant or are they just escapist diversions to entertain the masses and enrich the studios Not every successful film contains thoughtful commentary but some that are marketed as pure entertainment do seriously engage social issues Popular science fiction films of the late 1970s and early 1980s such as George Lucas Star Wars trilogy Ridley Scott s Alien and Aliens and James Cameron s Terminator films present a critique of our engagement with technology in a way that resonates with 1960s counterculture As challengers of the status quo s technological underpinnings Luke Skywalker Ellen Ripley and Sarah Connor echo the once popular social criticism of philosopher Herbert Marcuse and speak directly to the concerns of people living in a technologically complex society The films of Lucas Scott and Cameron made money but also made us think about the world we live in **Half Lives** Lucy Jane Santos,2020-07-02 Half Lives shines a light on the shocking history of the world s toxic love affair with a deadly substance radium Unnerving fascinating informative and truly frightening Hallie Rubenhold author of The Five The story of this supposed cure all in everyday 20th century life is fascinating and well told Brian Maye Irish Times Lucy Jane Santos presents the surprising history of radium in everyday life Of all the radioactive elements discovered at the end of the 19th century it was radium that became the focus of both public fascination and entrepreneurial zeal Half Lives tells the fascinating curious sometimes macabre story of the element through its ascendance as a desirable item a present for a queen a prize in a treasure hunt a glow in the dark dance costume to its role as a supposed cure all in everyday 20th century life when medical practitioners and business people reputable and otherwise devised ingenious ways of commodifying the new wonder element and enthusiastic customers welcomed their radioactive wares into their homes Historian Lucy Jane Santos herself the proud owner of a formidable collection of radium beauty treatments delves into the stories of these products and details the gradual downfall and discredit of the radium industry through the eyes of the people who bought sold and eventually came to fear the once fetishized substance She reveals a new history of radium one in which the stories of those previously dismissed as quacks and fools are brought to life as part of a unique examination of the interplay between science and popular culture

The Rhetorical Rise and Demise of "Democracy" in Russian Political Discourse, Volume 1 David Cratis Williams, Marilyn J. Young, Michael K. Launer, 2021-12-14 The essays in this book examine the arguments and rhetoric used by the United States and the USSR following two catastrophes that impacted both countries as blame is cast and consequences are debated In this environment it was perhaps inevitable that conspiracy theories would arise especially about the downing of Korean Air Lines Flight 007 over the Sea of Japan Those theories are examined resulting in at least one method for addressing conspiracy arguments In the case of Chernobyl the disaster ruptured the social compact between the Soviet government and the people efforts to overcome the resulting disillusionment quickly

became the focus of state efforts **The Gernsback Days** Mike Ashley, Michael Ashley, Robert A. W. Lowndes, 2004-01-01 In recent years there has been a resurgence of interest in Hugo Gernsback and the start of a serious study of the contribution he made to the development of science fiction It seemed to me that the time was due to reinvestigate the Gernsback era and dig into the facts surrounding the origins of Amazing Stories I wanted to find out exactly why Hugo Gernsback had launched the magazine what he was trying to achieve and to consider what effects he had good and bad Too many writers and editors from the Gernsback days have been unjustly neglected or unfairly criticized Now I hope Robert A W Lowndes and I have provided the grounds for a fair consideration of their efforts and a true reconstruction of the development of science fiction It is the closest to time travel you will ever get I hope you enjoy the trip Mike Ashley Preface **The Geopolitics of American Insecurity** Francois Debrix, Mark Lacy, 2009-01-13 This edited volume examines the political social and cultural insecurities that the United States is faced with in the aftermath of its post 9 11 foreign policy and military ventures The contributors critically detail the new strategies and ideologies of control governance and hegemony America has devised as a response to these new security threats The essays explore three primary areas First they interrogate the responses to 9 11 that resulted in an attempt at geopolitical mastery by the United States Second they examine how the US response to 9 11 led to attempts to secure and control populations inside and outside the United States resulting in situations that quickly started to escape its control such as Abu Ghraib and Katrina Lastly the chapters investigate links between contemporary regimes of state control and recently recognized threats arguing that the conduct of everyday life is increasingly conditioned by state mobilized discourses of security These discourses are it is argued ushering in a geopolitical future characterized by new insecurities and inevitable measures of biopolitical control and governance **Whitaker's Cumulative Book List**, 1961

Literature and Terrorism, 2012-01-01 The years following the attacks of September 11 2001 have seen the publication of a wide range of scientific analyses of terrorism Literary studies seem to lag curiously behind this general shift of academic interest The present volume sets out to fill this gap It does so in the conviction that the study of literature has much to offer to the transdisciplinary investigation of terror not only with respect to the present post 9 11 situation but also with respect to earlier historical contexts Literary texts are media of cultural self reflection and as such they have always played a crucial role in the discursive response to terror both contributing to and resisting dominant conceptions of the causes motivations dynamics and aftermath of terrorist violence By bringing together experts from various fields and by combining case studies of works from diverse periods and national literatures the volume Literature and Terrorism chooses a diachronic and comparative perspective It is interested in the specific cultural work performed by narrative and dramatic literature in the face of terrorism focusing on literature's ambivalent relationship to other competing modes of discourse
