

MARK SCHEME for the May/June 2014 series

0607 CAMBRIDGE INTERNATIONAL MATHEMATICS

0607/21

Paper 2 (Extended), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2014 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

Technically Together Taylor Dotson, 2024-02-06 Why we should not accept networked individualism as the inevitable future of community If social interaction by social media has become the modern front porch as one sociologist argues offering richer and more various contexts for community and personal connection why do we often feel lonelier after checking Facebook For one thing as Taylor Dotson writes in *Technically Together* Try getting a Facebook status update to help move a couch or stay for dinner Dotson argues that the experts who assure us that networked individualism will only bring us closer together seem to be urging citizens to adapt their social expectations to the current limits of technology and discouraging them from considering how technologies could be refashioned to enable other ways of relating and belonging Dotson characterizes different instantiations of community as thick or thin depending on the facets and manifestations of togetherness that they encompass Individuating social networks are a form of community he explains but relatively thin in regard to several dimensions of communality Dotson points out that current technological practices are not foreordained but supported by policies economic arrangements and entrenched patterns of thought He examines a range of systems organizations and infrastructures from suburban sprawl and smartphones to energy grids and cry it out sleep training for infants and considers whether they contribute to the atomization of social life or to togetherness and community vibrancy Dotson argues that technology could support multifaceted communities if citizens stopped accepting the technological status quo and instead demanded more from their ever present devices

efforts over the past two centuries especially The sophistication of these measures evolved to include a wide range of expertise Lay interest among antiquarians and architects in Rome s past from the Renaissance through the eighteenth century was supplanted by the emerging new disciplines of archaeology architectural restoration and museology From the late nineteenth century corresponding advancements in archaeological method and conservation theory and science were increasingly applied From this time on as well expectations for preserving and presenting the Forum Romanum were high the famous site being a matter of intense Roman pride political interest and serving as a must see destination for visitors to Rome Leading historians archaeologists and conservators have been central to the story of the Forum s survival and interpretation While numerous noted antiquarians and historians preceded him the architect and archaeologist Giacomo Boni 1859 1925 was unusual even prescient in his approach and treatment of the place during his tenure as director of excavations of the Forum Romanum from 1898 until 1925 His combined talents as an architect archaeologist and conservator set a standard at the time for careful research thorough documentation and responsible conservation measures The sponsors of the DHARMA conference have wisely chosen to focus on archaeological research and conservation in the Forum during Giacomo Boni s tenure since his work reflects early best practices in researching preserving and interpreting such places To frame the discussion some precedents and influences of the work of Giacomo Boni are offered

Learning to see (better): improving visual deficits with perceptual learning Gianluca Campana, Marcello Maniglia, 2015-07-09 Perceptual learning can be defined as a long lasting improvement in a perceptual skill following a systematic training due to changes in brain plasticity at the level of sensory or perceptual areas Its efficacy has been reported for a number of visual tasks such as detection or discrimination of visual gratings De Valois 1977 Fiorentini Mayer 1983 motion direction discrimination Ball Ball Sekuler Shiu Vogels Bennett Fahle 1997 Fahle Kumar McKee Saarinen Casco Campana Campana Ellison Sireteanu Karni 1993 Saarinen Pourtois et al 2008 and extrastriate Ahissar Levi 2005 Levi Zhou et al 2006 myopia Tan Polat et al 2004 Polat 2009 Tan Fong 2008 More recently Maniglia et al 2011 perceptual learning with the lateral interactions paradigm has been successfully used for improving peripheral vision in normal people by improving contrast sensitivity and reducing crowding the interference in target discrimination due to the presence of close elements offering fascinating new perspectives in the rehabilitation of people who suffer of central vision loss such as maculopathy patients partially overcoming the structural differences between fovea and periphery that limit the vision outside the fovea One of the strongest point and a distinguishing feature of perceptual learning is that it does not just improve the subject s performance but produces changes in brain s connectivity and efficiency resulting in long lasting enduring neural changes By tailoring the paradigms on each subject s needs perceptual learning could become the treatment of choice for the rehabilitation of visual functions emerging as a simple procedure that doesn t need expensive equipment
